

Arcutis Announces New Coverage for ZORYVE® (Roflumilast) Cream 0.3% with National and Regional Health Plan Formularies, Bringing Total Commercial Covered Lives to Over 110 Million

April 5, 2023

- Eight additional national and regional health plans are now covering ZORYVE for plaque psoriasis
- ZORYVE is a once-daily, steroid-free cream approved for use in both adults and adolescents with plaque psoriasis, including all affected areas of the body

WESTLAKE VILLAGE, Calif., April 05, 2023 (GLOBE NEWSWIRE) -- Arcutis Biotherapeutics, Inc. (Nasdaq: ARQT), an early commercial-stage company focused on developing meaningful innovations in immuno-dermatology, today announced that ZORYVE® (roflumilast) cream 0.3% for the treatment of plaque psoriasis, including intertriginous psoriasis, in adults and adolescents is being covered without prior authorizations by an additional eight national and regional health plans effective April 1. Combined with the previously announced coverage from two of the three largest national pharmacy benefit managers and several large national health plans, commercial coverage for ZORYVE for plaque psoriasis now exceeds 110 million commercially covered lives in the United States.

The vast majority of individuals with plaque psoriasis use topical therapies, and until recently there were few steroid-free options. ZORYVE, a once-daily, steroid-free PDE4 inhibitor cream, provides rapid results for both hard-to-treat areas, such as knees and elbows, and sensitive areas such as the face, intertriginous areas, and genitalia.

"We are thrilled by the inclusion of ZORYVE on these additional national health plans, and by our rapid progress in unlocking high quality access to ensure our next-generation topical PDE4 inhibitor is available to even more adults and adolescents with plaque psoriasis in the United States. This commercial coverage, which requires no prior authorization, provides a further proof point that our responsible pricing strategy is resonating with payers," said Frank Watanabe, President and CEO of Arcutis. "We are actively engaging with other payers to further increase coverage, while continuing to accelerate the adoption of ZORYVE by dermatologists and individuals with plaque psoriasis."

In addition to working with payers, the company is committed to providing affordable access to ZORYVE through responsible pricing, [ZORYVE Direct](#), a patient access support and saving program*, and the [Arcutis Cares](#)™ patient assistance program, which provides ZORYVE at no cost for financially eligible patients who are uninsured or underinsured.†

ZORYVE is available by prescription only. For more information about ZORYVE visit [zoryve.com](https://www.zoryve.com).

About ZORYVE®
