PROXY STATEMENT

FOR THE 2023 ANNUAL MEETING OF STOCKHOLDERS

May 31, 2023

We have sent you this Proxy Statement and the enclosed Proxy Card because the Board of Directors (the "Board") of Arcutis Biotherapeutics, Inc. (referred to herein as the "Company", "Arcutis", "we", "us" or "our"), is soliciting your proxy to vote at our 2023 Annual Meeting of Stockholders (the "Annual Meeting") to be held on Wednesday, **May 31, 2023**, at 8:30 a.m. local time, virtually at www.virtualshareholdermeeting.com/ARQT2023. There will be no physical meeting location. The meeting will only be conducted via an audio webcast.

- This Proxy Statement summarizes information about the proposals to be considered at the Annual Meeting and other information you may find useful in determining how to vote.
- The Proxy Card is the means by which you actually authorize another person to vote your shares in accordance with your instructions.

In addition to solicitations by mail, our directors, officers and regular employees, without additional remuneration, may solicit proxies by telephone, e-mail and personal interviews. We may retain outside consultants to solicit proxies on our behalf as well. All costs of solicitation of proxies will be borne by us. Brokers, custodians and fiduciaries will be requested to forward proxy soliciting material to the owners of stock held in their names, and we will reimburse them for their reasonable out-of-pocket expenses incurred in connection with the distribution of proxy materials.

Pursuant to the rules adopted by the Securities and Exchange Commission (the "SEC"), we have elected to provide access to our Annual Meeting materials, which include this Proxy Statement and our Annual Report on Form 10-K for the year ended December 31, 2022 (the "Form 10-K"), over the internet in lieu of mailing printed copies. We will begin mailing the Notice of Internet Availability to our stockholders of record as of April 3, 2023 (the "Record Date"), for the first time on or about April 18, 2023. The Notice of Internet Availability will contain instructions on how to access and review the Annual Meeting materials, and will also contain instructions on how to request a printed copy of the Annual Meeting materials. In addition, we have provided brokers, dealers, banks, voting trustees and their nominees, at our expense, with additional copies of our proxy materials and the Form 10-K so that our record holders can supply these materials to the beneficial owners of shares of our common stock as of the Record Date. The Form 10-K is also available in the "Financials" section of our website at <https://investors.arcutis.com/investor-relations>.

The only outstanding voting securities of Arcutis are shares of common stock, \$0.0001 par value per share (the "common stock"), of which there were 61,360,936 shares outstanding as of the Record Date (excluding any treasury shares). The holders of a majority in voting power of the shares of common stock issued and outstanding and entitled to vote, present in person or represented by proxy, are required to hold the Annual Meeting.

INFORMATION ABOUT THE PROXY PROCESS AND VOTING

Why am I receiving these materials?

We have made this Proxy Statement and Proxy Card available to you on the internet or, upon your request, have delivered printed proxy materials to you, because the Board is soliciting your proxy to vote at the Annual Meeting, including at any adjournments or postponements of the Annual Meeting. You are invited to attend the Annual Meeting via internet to vote on the proposals described in this Proxy Statement. However, you do not need to attend the Annual Meeting to vote your shares. Instead, you may simply complete, sign and return the Proxy Card, or follow the instructions below to submit your proxy over the telephone or on the internet.

This Proxy Statement, the Notice of Internet Availability, the Notice of Annual Meeting and accompanying Proxy Card will be first made available for access by our stockholders on or about April 18, 2023, to all stockholders of record entitled to vote at the Annual Meeting.

Who can vote at the Annual Meeting?

Stockholders of record at the close of business on the Record Date will be entitled to notice of and to vote at the Annual Meeting. At the close of business on the Record Date, there were 61,360,936 shares of common stock issued and outstanding and entitled to vote. Each share of our common stock is entitled to one vote on any matter presented to stockholders at the Annual Meeting. You will need to obtain your own internet access if you choose to attend the Annual Meeting online and/or vote over the internet.

Stockholder of Record: Shares Registered in Your Name

If, on the Record Date, your shares were registered directly in your name with the transfer agent for our common stock, Equiniti Trust Company, then you are a stockholder of record. As a stockholder of record, you may vote at the Annual Meeting or vote by proxy. Whether or not you plan to attend the Annual Meeting, we encourage you to fill out and return the Proxy Card or vote by proxy over the telephone or on the internet as instructed below (see "How do I vote?") to ensure your vote is counted.

Beneficial Owner: Shares Registered in the Name of a Broker, Bank or Other Agent

If, on the Record Date, your shares were held in an account at a brokerage firm, bank, dealer or other similar organization, then you are the beneficial owner of shares held in "street name" and these proxy materials are being forwarded to you by that organization. The organization holding your account is considered the stockholder of record for purposes of voting at the Annual Meeting. As a beneficial owner, you have the right to direct your broker or other agent on how to vote the shares in your account. You are also invited to attend the virtual Annual Meeting. However, since you are not the stockholder of record, you may not vote your shares at the virtual Annual Meeting unless you request and obtain a valid Proxy Card from your broker or other agent.

What am I being asked to vote on?

There are four matters scheduled for a vote:

- Proposal No. 1 - the election of three Class III directors to hold office until our 2026 annual meeting of stockholders;
- Proposal No. 2 - the ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm for the year ending December 31, 2023; and
- Proposal No. 3 - the approval, on a non-binding advisory basis, of the compensation of our named executive officers.

In addition, you are entitled to vote on any other matters that are properly brought before the Annual Meeting. The Board knows of no other matters that will be presented for consideration at the Annual Meeting.

What is the Board's voting recommendation?

The Board recommends that you vote your shares:

- "FOR" the election of the director nominees;
- "FOR" the ratification of the selection of Ernst & Young LLP as the independent registered public accounting firm for the Company's fiscal year ending December 31, 2023; and
- "FOR" the approval, on a non-binding advisory basis, of the compensation of the named executive officers.

How do I vote?

For Proposal No. 1, you may either vote "For" all the nominees to the Board or you may "Withhold" your vote for any nominee you specify. For Proposal Nos. 2 and 3, you may vote "For" or "Against" or abstain from voting.

Please note that by casting your vote by proxy you are authorizing the individuals listed on the Proxy Card to vote your shares in accordance with your instructions and in their discretion with respect to any other matter that properly comes before the Annual Meeting or any adjournments or postponements thereof.

The procedures for voting depend on whether your shares are registered in your name or are held by a bank, broker or other agent:

Stockholder of Record: Shares Registered in Your Name

If you are a stockholder of record, you may vote at the virtual Annual Meeting. Alternatively, you may vote by proxy, by using the accompanying Proxy Card, over the internet or by telephone. Whether or not you plan to attend the Annual Meeting, we encourage you to vote by proxy to ensure your vote is counted. Even if you have submitted a proxy before the Annual Meeting, you may still attend the virtual Annual Meeting and vote by following the instructions described below. In such case, your previously submitted proxy will be disregarded.

- **At the Annual Meeting** - To vote by attending the virtual Annual Meeting, vote your shares at www.virtualshareholdermeeting.com/ARQT2023 during the Annual Meeting. You will need the 16-digit control number which appears on the accompanying Proxy Card (printed in the box and marked by the arrow) and the instructions that accompanied these proxy materials. For additional details on the virtual meeting, please see page [9] of this Proxy Statement.
- **By Mail** - To vote using the Proxy Card, simply complete, sign and date the accompanying Proxy Card and return it promptly in the envelope provided. If you return your signed Proxy Card to us before the Annual Meeting, we will vote your shares in accordance with the Proxy Card.
- **Via the Internet** - To vote by proxy over the internet, follow the instructions provided on the Notice of Internet Availability.
- **By Telephone** - To vote by telephone, you may vote by proxy by calling the toll free number found on the Notice of Internet Availability.

Beneficial Owner: Shares Registered in the Name of Broker, Bank or Other Agent

If you are a beneficial owner of shares registered in the name of your broker, bank or other agent, you will receive a voting instruction card and voting instructions with these proxy materials from that organization rather than from us. To vote at the virtual Annual Meeting, you must obtain a valid proxy from your broker, bank or other agent. Follow the instructions from your broker, bank or other agent included with these proxy materials, or contact your broker, bank or other agent to request a proxy form.

We provide internet proxy voting to allow you to vote your shares online, with procedures designed to ensure the authenticity and correctness of your proxy vote instructions. However, please be aware that you must bear any costs associated with your internet access, such as usage charges from internet access providers and telephone companies.

Who counts the votes?

Broadridge Financial Solutions, Inc. ("Broadridge"), has been engaged as our independent agent to tabulate stockholder votes and a representative of Broadridge will act as inspector of election ("Inspector of Election").

What are "broker non-votes"?

A "broker non-vote" occurs when a beneficial owner of shares held in "street name" does not give instructions to the broker, bank or other agent holding the shares as to how to vote on "non-routine" proposals. Generally, if shares are held in street name, the beneficial owner of the shares is entitled to give voting instructions to the broker, bank or other agent holding the shares. If the beneficial owner does not provide voting instructions, the broker, bank or other agent can still vote the shares with respect to matters that are considered to be "routine" under the applicable rules but cannot vote with respect to "non-routine" matters. On non-routine matters, any "uninstructed shares" may not be voted by the broker, bank or other agent and are considered to be "broker non-votes."

Broker non-votes and abstentions are counted for the purpose of determining whether a quorum is present at the Annual Meeting. Only affirmative and negative votes are counted for purposes of determining the votes received in connection with each proposal. Broker non-votes and abstentions will have no effect on determining whether the affirmative vote constitutes a majority of the shares present or represented by proxy and voting at the Annual Meeting. Accordingly, if you own shares through a nominee, such as a broker, bank or other agent, please be sure to instruct your nominee how to vote to ensure that your vote is counted on each of the proposals.

Which proposals are routine and which are non-routine?

The following proposal is considered a routine matter:

- Proposal No. 2 (the ratification of the selection of Ernst & Young LLP as the independent registered public accounting firm for the Company's fiscal year ending December 31, 2023).

A broker, bank or other agent generally has discretionary voting power with respect to such proposal and therefore no broker non-votes are expected to exist in connection with Proposal No. 2.

The following proposals are considered non-routine matters:

- Proposal No. 1 (the election of director nominees); and
- Proposal No. 3 (the non-binding advisory vote to approve the compensation of the named executive officers).

A broker, bank or other agent generally cannot vote with respect to such proposals without voting instructions from the respective beneficial owner and therefore there may be broker non-votes on such proposals. If you own shares through a nominee, such as a broker, bank or other agent, and do not

instruct your nominee how to vote your shares for these proposals, the nominee will inform the Inspector of Election that it does not have the authority to vote on the matter with respect to your shares, which is referred to above as a “broker non-vote.” Therefore, broker non-votes may exist in connection with Proposal No. 1 and Proposal No. 3.

How many votes are needed to approve each proposal?

With respect to Proposal No. 1 (the election of director nominees), the three nominees who receive the most “For” votes cast will be elected as Class III directors to our Board. Abstentions and broker non-votes are not considered votes cast and will not be counted in determining the outcome of the election of the director nominees

With respect to Proposal No. 2 (the ratification of the selection of Ernst & Young LLP as the independent registered public accounting firm for the Company's fiscal year ending December 31, 2023), the affirmative vote of the majority of total votes cast affirmatively or negatively (excluding abstentions and broker non-votes) is required for approval. Abstentions and broker non-votes are not considered votes cast, however, Proposal No. 2 is considered to be “routine” under applicable laws and thus we do not expect any broker non-votes.

With respect to Proposal No. 3 (the non-binding advisory vote to approve the compensation of the named executive officers), the affirmative vote of a majority of total votes cast affirmatively or negatively is required to determine approval on an advisory basis. Abstentions and broker non-votes are not considered votes cast and will not be counted in determining the outcome of the advisory vote. This vote is advisory and not binding on us, our Board, or our Compensation Committee.

What if I return a Proxy Card but do not make specific choices?

If we receive a signed and dated Proxy Card and the Proxy Card does not specify how your shares are to be voted, your shares will be voted in accordance with the recommendations of the Board. The Board's recommendations are set forth above, as well as with the description of each proposal in this Proxy Statement.

Who is paying for this proxy solicitation?

We have retained Morrow Sodali LLC, 333 Ludlow Street, Fifth Floor, South Tower, Stamford, CT 06902, to assist in the solicitation of proxies for a fee of approximately \$7,500, plus distribution costs and other costs and expenses. We will pay for the entire cost of soliciting proxies. In addition to these mailed proxy materials, our directors, officers and employees may also solicit proxies in person, by telephone or by other means of communication. Directors, officers and employees will not be paid any additional compensation for soliciting proxies. We may also reimburse brokerage firms, banks and other agents for the cost of forwarding proxy materials to beneficial owners.

What does it mean if I receive more than one set of materials?

If you receive more than one set of materials, your shares are registered in more than one name or are registered in different accounts. In order to vote all the shares you own, you must either sign and return all of the Proxy Cards or follow the instructions for any alternative voting procedure on each of the Proxy Cards.

Can I change my vote after submitting my proxy?

Yes. You can revoke your proxy at any time before the final vote at the Annual Meeting. If you are the record holder of your shares, you may revoke your proxy in any one of the following ways on or before the close of voting for the Annual Meeting:

- You may submit another properly completed proxy with a later date.
- You may grant a subsequent timely proxy by telephone or through the internet.
- You may send a timely written notice that you are revoking your proxy to our Corporate Secretary at 3027 Townsgate Road, Suite 300, Westlake Village, CA 91361.
- You may attend the virtual Annual Meeting and vote at the meeting by following the instructions described above. Simply attending the Annual Meeting will not, by itself, revoke your proxy.

Your most current proxy card or telephone or internet proxy is the one that is counted, so long as it is provided within the applicable deadline. If your shares are held by your broker, banker or other agent, you should follow the instructions provided by your broker, bank or other agent to change your vote or revoke your proxy.

How do I attend the virtual Annual Meeting?

The live audio webcast of the Annual Meeting. Any stockholder can attend the Annual Meeting live online at www.virtualshareholdermeeting.com/ARQT2023. Online access to the audio webcast will open approximately 15 minutes prior to the start of the Annual Meeting to allow time for our stockholders to log in and test their devices' audio system. We encourage our stockholders to access the meeting in advance of the designated start time.

If you were a stockholder as of the Record Date, or you hold a valid proxy for the Annual Meeting, you can vote at the Annual Meeting. A summary of the information you need to attend the Annual Meeting online is provided below:

- Instructions on how to attend and participate via the internet, including how to demonstrate proof of stock ownership, are posted at www.virtualshareholdermeeting.com/ARQT2023.

- Webcast starts at 8:30 a.m. Pacific time.
- You will need your 16-digit control number on the proxy card or voting instruction form.

Can I submit questions prior to or at the virtual Annual Meeting?

Stockholders may submit questions and vote on the day of, or during, the Annual Meeting on www.virtualshareholdermeeting.com/ARQT2023. To demonstrate proof of stock ownership, you will need to enter the 16-digit control number received with your proxy card or voting instruction form to submit questions and vote at our Annual Meeting. We intend to answer questions submitted during the meeting that are pertinent to the Company and the items being brought before stockholder vote at the Annual Meeting, as time permits, and in accordance with the Rules of Conduct for the Annual Meeting. Questions and answers will be grouped by topic and substantially similar questions will be answered only once. To promote fairness, efficiently use the Company's resources and ensure all stockholder questions are able to be addressed, we will respond to no more than three questions from a single stockholder.

Is technical assistance provided before and during the virtual Annual Meeting?

If you encounter any difficulties accessing the virtual meeting during the check-in time or meeting time, or you have any questions regarding how to use the virtual meeting platform, please call the technical support number that will be posted on the virtual shareholder meeting log-in page.

When are stockholder proposals due for next year's Annual Meeting?

Stockholders who intend to have a proposal considered for inclusion in our proxy materials for presentation at our 2024 Annual Meeting of Stockholders pursuant to Rule 14a-8 under the Securities Exchange Act of 1934, as amended (the "Exchange Act") must submit the proposal to our Corporate Secretary at 3027 Townsgate Road, Suite 300, Westlake Village, CA 91361 no later than December 20, 2023.

Stockholders intending to present a proposal at the 2024 Annual Meeting of Stockholders, but not to include the proposal in our proxy statement, or to nominate a person for election as a director, must comply with the requirements in our bylaws. Our bylaws require, among other things, that our Corporate Secretary receive written notice from the stockholder of record of their intent to present such proposal or nomination not less than 90 days nor more than 120 days prior to the first anniversary of the preceding year's annual meeting. Therefore, we must receive notice of such a proposal or nomination for the 2024 Annual Meeting of Stockholders no earlier than the close of business on February 1, 2024 and no later than the close of business on March 2, 2024. The notice must contain the information required by the bylaws, a copy of which is available upon request to our Corporate Secretary. In the event that the date of the 2024 Annual Meeting of Stockholders is more than 30 days before or more than 30 days after May 31, 2024, then our Corporate Secretary must receive such written notice not earlier than the close of business on the 120th day prior to the 2024 Annual Meeting and not later than the close of business on the 90th day prior to the 2024 Annual Meeting or, if later, the 10th day following the day on which public disclosure of the date of such annual meeting is first made by us. You are advised to review our bylaws, which contain additional requirements about advance notice of stockholder proposals and director nominations. In addition to satisfying the foregoing requirements under the Company's Bylaws, to comply with the universal proxy rules, any notice of director nomination submitted to the Company must include the additional information required by Rule 14a-19 under the Exchange Act no later than April 1, 2024.

We intend to file our Proxy Statement and WHITE proxy card with the SEC in connection with our solicitation of proxy for our 2023 Annual Stockholders Meeting. Stockholders may obtain our Proxy Statement (and any amendments or supplements thereto) and other documents as and when filed by the Company with the SEC without charge from the Company's website at www.sec.gov.

What is the quorum requirement?

A quorum of stockholders is necessary to hold a valid meeting. A quorum will be present if the holders of a majority in voting power of the shares of common stock issued and outstanding and entitled to vote are present in person, or by remote communication, if applicable, or represented by proxy at the Annual Meeting. Shares are considered present "in person" if voted by the holder of those shares during the Annual Meeting or by proxy. On the Record Date, there were 61,360,936 shares outstanding and entitled to vote. Accordingly, 30,680,469 shares must be represented by stockholders present at the Annual Meeting or by proxy to have a quorum.

Your shares will be counted toward the quorum only if you submit a valid proxy or vote at the Annual Meeting. Abstentions and broker non-votes will be counted toward the quorum requirement. If there is no quorum, either the Chair of the Annual Meeting or a majority in voting power of the stockholders entitled to vote at the Annual Meeting, present in person, or by remote communication, if applicable, or represented by proxy, may adjourn the Annual Meeting to another time or place.

How can I find out the results of the voting at the Annual Meeting?

Voting results will be announced by the filing of a Current Report on Form 8-K within four business days after the Annual Meeting. If final voting results are unavailable at that time, we will file an amended Current Report on Form 8-K within four business days of the day the final results are available.

PROPOSAL NO. 1
ELECTION OF DIRECTORS

Board Size and Structure

Our Board is divided into three classes. Each class consists, as nearly as possible, of one-third of the total number of directors, and each class has a staggered, three-year term. Unless the Board determines that vacancies (including vacancies created by increases in the number of directors) shall be filled by the stockholders, and except as otherwise provided by law, vacancies on the Board may be filled only by the affirmative vote of a majority of the remaining directors. A director elected by the Board to fill a vacancy (including a vacancy created by an increase in the number of directors) shall serve for the remainder of the full term of the class of directors in which the vacancy occurred and until such director's successor is elected and qualified.

The Board currently consists of 10 seated directors, divided into the three following classes:

- *Class I directors:* Terrie Curran, Halley Gilbert and Keith R. Leonard, Jr., whose current terms will expire at the annual meeting of stockholders to be held in 2024;
- *Class II directors:* Bhaskar Chaudhuri, Ph.D., Howard Welgus, M.D. and Sue-Jean Lin, whose current terms will expire at the annual meeting of stockholders to be held in 2025; and
- *Class III directors:* Patrick Heron, Neha Krishnamohan, Joseph L. Turner, and Todd Franklin Watanabe, whose current terms will expire at the Annual Meeting.

At each annual meeting of stockholders, the successors to directors whose terms will then expire will be elected to serve from the time of election and qualification until the third subsequent annual meeting of stockholders.

Mr. Heron, Ms. Krishnamohan and Mr. Watanabe have been nominated to serve as Class III directors and have each elected to stand for reelection. Each director to be elected will hold office from the date of their election by the stockholders until the third subsequent annual meeting of stockholders or until his or her successor is elected and has been qualified, or until such director's earlier death, resignation or removal. Mr. Turner will not stand for reelection. Mr. Turner will continue to serve as a director until the expiration of his term at the Annual Meeting. The Board expresses its gratitude to Mr. Turner for his many contributions during his service on the Board. Our Bylaws provide that the number of directors will be determined by the Board, and the number of directors is currently set at 10. The Board will reduce the number of directors to 9 following the Annual Meeting.

Shares represented by executed proxies will be voted, if authority to do so is not withheld, for the election of these three nominees. In the event that any nominee should be unavailable for election as a result of an unexpected occurrence, such shares will be voted for the election of such substitute nominee as the Board may propose. Each person nominated for election has agreed to serve if elected, and management has no reason to believe that any nominee will be unable to serve. Directors are elected by a plurality of the votes cast at the meeting.

The following table sets forth, for the Class III nominees (who are currently standing for re-election) and for our other current directors who will continue in office after the Annual Meeting, information with respect to their ages as of April 3, 2023, tenure on the Board, and position/office held within the Company:

Board Recommendation

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THE ELECTION OF EACH OF THE THREE NAMED CLASS III DIRECTOR NOMINEES

PROPOSAL NO. 2

RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Appointment of Independent Registered Public Accounting Firm

The Audit Committee of our Board has engaged Ernst & Young LLP (“EY”) as our independent registered public accounting firm for the year ending December 31, 2023, and is seeking ratification of such selection by our stockholders at the Annual Meeting. EY has served as the Company’s independent registered public accounting firm since 2019. Representatives of EY are expected to be present at the Annual Meeting. They will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

Neither our bylaws nor other governing documents or law require stockholder ratification of the selection of EY as our independent registered public accounting firm. However, the Audit Committee is submitting the selection of EY to our stockholders for ratification as a matter of good corporate practice. If our stockholders fail to ratify the selection, the Audit Committee will reconsider whether or not to retain EY. Even if the selection is ratified, the Audit Committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if they determine that such a change would be in the best interests of the Company and our stockholders.

Principal Accountant Fees and Services

The following table provides information regarding the fees incurred for services related to the fiscal years ended December 31, 2022 and 2021, by EY, our independent registered public accounting firm.

	Year Ended December 31,	
	2022	2021
Audit Fees (1)	\$ 1,598,800	\$ 1,047,750
Tax Fees	342,066	36,200
Audit-Related Fees	—	—
All Other Fees	1,425	4,200
Total Fees	\$ 1,942,291	\$ 1,088,150

(1) Audit fees are for professional services rendered for the audits of our financial statements for the years ending December 31, 2022 and 2021; professional services rendered for the audit of our internal controls for the year ended December 31, 2021; reviews of quarterly financial statements; professional services rendered in connection with our registration statements and securities offerings; and other accounting and financial reporting consultation services billed as audit fees or necessary to comply with the standards of the Public Company Accounting Oversight Board (United States). Fees for 2022 include services associated with our “at-the market” offering program in March 2022 and our equity offering completed in August 2022. Fees for 2021 include services associated with our follow-on equity offering completed in February 2021 and our “at-the-market” offering program, which we launched in May 2021.

The Committee concluded that the provision of these services by EY would not affect their independence.

Pre-Approval Policies and Procedures

The Audit Committee has adopted a policy (the “Pre-Approval Policy”) that sets forth the procedures and conditions pursuant to which audit and non-audit services proposed to be performed by the independent registered public accounting firm may be pre-approved. The Pre-Approval Policy provides that annual audit services engagement terms and fees are subject to the approval of the Audit Committee and delegates certain authority to the Chair of the Audit Committee to approve audit, audit-related, tax or permissible non-audit services, provided that the delegated services do not exceed 10% of the prior year actual costs for annual services provided by the independent registered public accounting

firm, as established by the Audit Committee. Any services above the 10% limit require the approval of the full Audit Committee. The Pre-Approval Policy also provides that each pre-approval decision shall be communicated to the Audit Committee at its next scheduled meeting.

The Audit Committee considers whether services proposed to be performed by the independent registered public accounting firm are consistent with the SEC's rules on auditor independence. The Audit Committee will also consider whether the independent auditor is best positioned to provide the most effective and efficient service.

In connection with the Pre-Approval Policy, the Audit Committee will monitor the audit services engagement as necessary, and will approve, if necessary, any changes in terms, conditions and fees resulting from changes in audit scope, Company structure or other items.

All services to the Company provided by the Company's independent registered public accounting firm after the adoption of the Pre-Approval Policy in 2022 were approved in accordance with the Pre-Approval Policy.

CORPORATE GOVERNANCE

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics that applies to all of our employees, officers and directors, including those officers responsible for financial reporting. The Code of Business Conduct and Ethics is available on our website at <https://investors.arcutis.com/corporate-governance/governance-overview>. The Audit Committee and Nominating and Corporate Governance Committee are responsible for the development and periodic review of the Code of Business Conduct and Ethics. We expect that any amendments to the code, or any waivers of its requirements, will be disclosed on our website.

Corporate Governance Guidelines

We believe in sound corporate governance practices and have adopted formal Corporate Governance Guidelines to enhance our effectiveness. Our Board adopted these Corporate Governance Guidelines in order to ensure that it has the necessary practices in place to review and evaluate our business operations as needed and to make decisions that are independent of our management. The Corporate Governance Guidelines are also intended to align the interests of directors and management with those of our stockholders. The Corporate Governance Guidelines set forth the practices our Board follows with respect to Board and committee composition and selection, Board meetings, Chief Executive Officer performance evaluation and succession planning. A copy of our Corporate Governance Guidelines is available on our website at <https://investors.arcutis.com/corporate-governance/governance-overview>.

Leadership Structure of the Board

Our Bylaws and Corporate Governance Guidelines provide our Board with flexibility to combine or separate the positions of Chairman of the Board and Chief Executive Officer and/or to implement a lead director in accordance with its determination that utilizing one or the other structure would be in the best interests of the Company. Mr. Heron currently serves as the Chairman of our Board. In that role, Mr. Heron presides over the executive sessions of the Board and as a liaison between management and the board of directors. All of our directors are encouraged to make suggestions for agenda items and pre-meeting materials for meetings of the Board of Directors.

Our Board has concluded that our current leadership structure is appropriate at this time. However, our Board will continue to periodically review our leadership structure and may make such changes in the future as it deems appropriate.

Independence of the Board of Directors

As required under the Nasdaq Global Select Market (“Nasdaq”) rules and regulations, a majority of the members of a listed company’s board of directors must qualify as “independent,” as affirmatively determined by such board. The Board consults with the Company’s counsel to ensure that the Board’s determinations are consistent with all relevant securities and other laws and regulations regarding the definition of “independent,” including those set forth in pertinent Nasdaq listing standards, as in effect from time to time.

Consistent with these considerations, our Board has determined that eight of our ten directors qualify as “independent” directors in accordance with the Nasdaq listing requirements. Mr. Watanabe is not considered independent because he is an employee of the Company. Dr. Welgus served as our Chief Medical Officer from April 2017 to July 2020 and, as a result, is not considered independent because he was an employee of the Company within the last three years. The Nasdaq independence definition includes a series of objective tests, such as that the director is not, and has not been for at least three years, one of our employees and that neither the director nor any of his or her family members has engaged in various types of business dealings with us. Following July 2023, which is the three year anniversary of his retirement as our Chief Medical Officer, we expect Dr. Welgus to qualify as an independent director in accordance with the Nasdaq listing requirements. In addition, as required by Nasdaq rules, our Board has made a subjective determination as to each independent director that no relationships exist, which, in the opinion of our Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In making these determinations, our Board considered information provided by the directors and us with regard to each director’s business and personal activities and relationships as they may relate to us and our management. There are no family relationships among any of our directors or executive officers.

As required under Nasdaq rules and regulations, our independent directors meet in regularly scheduled executive sessions at which only independent directors are present. Each of the Audit Committee and Compensation Committee of our Board are comprised entirely of directors determined by the Board to be independent within the meaning of Nasdaq and SEC rules and regulations applicable to the members of such committees. With the exception of Dr. Welgus, each of the members of our Nominating and Corporate Governance Committee is an independent director under the applicable rules and regulations of Nasdaq relating to Nominating and Corporate Governance Committee independence. As a result, in accordance with Nasdaq Rule 5605(e), director nominees are selected, or recommended for the Board’s selection, by the independent directors constituting a majority of the Board’s independent directors in a vote in which only independent directors participate.

- the preparation of the audit committee report to be included in our annual proxy statement;
- our compliance with legal and regulatory requirements;
- our accounting and financial reporting processes, including our financial statement audits and the integrity of our financial statements;
- reviewing and approving related-person transactions; and
- our information technology and information security programs.

The current members of our Audit Committee are Sue-Jean Lin, Neha Krishnamohan, Joseph L. Turner and Halley Gilbert. Ms. Lin serves as the Chair of the committee. All members of our Audit Committee meet the requirements for financial literacy under the applicable rules and regulations of the SEC and Nasdaq. Our Board has determined that each of Sue-Jean Lin, Neha Krishnamohan, Joseph L. Turner and Halley Gilbert are an "audit committee financial expert" as defined under the applicable rules of the SEC and has the requisite financial sophistication as defined under the applicable rules and regulations of Nasdaq. Under the rules of the SEC, members of the audit committee must also meet heightened independence standards. Our Board has determined that each of Ms. Lin, Ms. Krishnamohan, Mr. Turner and Ms. Gilbert are independent under the applicable rules of the SEC and Nasdaq.

The Audit Committee operates under a written charter that satisfies the applicable standards of the SEC and Nasdaq. A copy of the Audit Committee charter is available to security holders on the Company's website at <https://investors.arcutis.com/corporate-governance/governance-overview>.

Compensation Committee

Our Compensation Committee oversees policies relating to compensation of and benefits for our officers and employees. Among other things, our Compensation Committee is responsible for:

- evaluating, recommending, approving and reviewing executive officer compensation arrangements, plans, policies and programs;
- evaluating and recommending non-employee director compensation arrangements for determination by our board of directors;
- administering our cash-based and equity-based compensation plans; and
- overseeing our compliance with regulatory requirements associated with the compensation of directors, officers and employees.

The current members of our Compensation Committee are Bhaskar Chaudhuri, Ph.D., Patrick Heron and Keith Leonard. Dr. Chaudhuri serves as the Chair of the committee. Each of the members of our Compensation Committee is independent under the applicable rules and regulations of Nasdaq and is a "non-employee director" as defined in Rule 16b-3 promulgated under the Exchange Act.

Our Compensation Committee has retained Pay Governance LLC (“Pay Governance”), a compensation consulting firm, to serve as its independent compensation consultant and to conduct market research and analysis on our various executive positions, to assist the committee in developing appropriate incentive plans for our executives on an annual basis, to provide the committee with advice and ongoing recommendations regarding material executive compensation decisions, and to review compensation proposals of management. Pay Governance reports directly to the Compensation Committee and does not provide any non-compensation related services to the Company. The Compensation Committee reviewed the independence of Pay Governance, employing the independence factors specified in the listing requirements of Nasdaq. Based on this assessment, the Compensation Committee determined that the engagement of Pay Governance does not raise any conflicts of interest or similar concerns. In addition, the Compensation Committee evaluated the independence of its other outside advisors to the Compensation Committee, including outside legal counsel, considering the same independence factors and concluded their work for the Compensation Committee does not raise any conflicts of interest.

The Compensation Committee operates under a written charter that satisfies the applicable standards of the SEC and The Nasdaq rules. A copy of the Compensation Committee charter is available to security holders on the Company’s website at <https://investors.arcutis.com/corporate-governance/governance-overview>.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee is responsible for identifying and considering candidates for directorships and the size and composition of our Board, overseeing the process of evaluating the performance of our Board, evaluating and overseeing our environmental, social and governance (“ESG”) principles, initiative and risks and reporting and advising our Board on other corporate governance matters. For example, the Nominating and Corporate Governance Committee conducts a periodic review and oversees the Company’s strategy and initiatives regarding the Company’s ESG responsibility, and reports its findings to the Board on an annual basis.

The current members of our Nominating and Corporate Governance Committee are Sue-Jean Lin, Terrie Curran and Howard Welgus, M.D. Ms. Curran serves as the Chair of the committee. With the exception of Dr. Welgus, each of the members of our Nominating and Corporate Governance Committee is an independent director under the applicable rules and regulations of Nasdaq relating to Nominating and Corporate Governance Committee independence. As a result, in accordance with Nasdaq Rule 5605(e), director nominees are selected, or recommended for the Board’s selection, by the independent directors constituting a majority of the Board’s independent directors in a vote in which only independent directors participate. In carrying out its responsibilities, the Nominating and Corporate Governance Committee operates under a written charter that satisfies the applicable standards of the SEC and Nasdaq rules. A copy of the Nominating and Corporate Governance Committee charter is available to security holders on the Company’s website at <https://investors.arcutis.com/corporate-governance/governance-overview>.

Our Nominating and Corporate Governance Committee is responsible for reviewing with the Board, on an annual basis, the appropriate characteristics, skills and experience required for the Board as a whole and its individual members. The Nominating and Corporate Governance Committee, in evaluating the suitability of individual candidates (both new candidates and current members), the independent directors of our Board, in recommending candidates for election, and the Board, in approving (and, in the case of vacancies, appointing) such candidates, may take into account many factors, including but not limited to the following:

- independence;
- personal and professional integrity;

- experience in corporate management, such as serving as an officer or former officer of a publicly held company;
- experience in the life sciences and biotechnology fields;
- experience as a board member or executive officer of another publicly held company;
- diversity, including diversity of expertise and experience in substantive matters pertaining to our business relative to other board members;
- conflicts of interest; and
- practical and mature business judgment.

Currently, our Board evaluates each individual in the context of the Board as a whole, with the objective of assembling a group that can best maximize the success of the business and represent stockholder interests through the exercise of sound judgment using its diversity of experience in these various areas. Our Board will consider director candidates recommended by stockholders. For a stockholder to make any nomination for election to the Board at an annual meeting, the stockholder must provide notice to the Company, which notice must be delivered to, or mailed and received at, the Company's principal executive offices not less than 90 days and not more than 120 days prior to the one-year anniversary of the preceding year's annual meeting; provided, that if the date of the annual meeting is more than 30 days before or more than 30 days after such anniversary date, the stockholder's notice must be delivered, or mailed and received, not earlier than 120 days prior to the date of the annual meeting and not later than 90 days prior to the date of the annual meeting or, if later, the 10th day following the date on which public disclosure of the date of such annual meeting is made. Further updates and supplements to such notice may be required at the times, and in the forms, required under our bylaws. As set forth in our bylaws, submissions must include information regarding the proposed nominee that is required to be disclosed in a proxy statement or other filings in a contested election pursuant to Section 14(a) under the Exchange Act, (including such person's written consent to being named in the proxy statement as a nominee and to serving as a director if elected). Our bylaws also specify further requirements as to the form and content of a stockholder's notice. We recommend that any stockholder wishing to make a nomination for director review a copy of our bylaws, as amended and restated to date, which is available, without charge, from our Corporate Secretary, at 3027 Townsgate Road, Suite 300, Westlake Village, CA 91361.

Meetings of the Board of Directors, Board and Committee Member Attendance and Annual Meeting Attendance

Our Board met six times during 2022. The Audit Committee met six times. The Compensation Committee met four times. The Nominating and Corporate Governance Committee met four times. During 2022, each Board member attended at least 75% of the meetings of the Board and of the committees of the Board on which he or she served, in each case, to the extent appointed as a Board member at the relevant time of each meeting. We encourage all of our directors and nominees for director to attend our annual meeting of stockholders; however, attendance is not mandatory.

Role of Board in Risk Oversight Process

Risk assessment and oversight are an integral part of our governance and management processes. Our Board encourages management to promote a culture that incorporates risk management into our corporate strategy and day-to-day business operations. Management discusses strategic and operational risks at regular management meetings, and conducts specific strategic planning and review sessions during the year that include a focused discussion and analysis of the risks facing us. Throughout the year, senior management reviews these risks with the Board at regular Board meetings as part of management presentations that focus on particular business functions, operations or strategies and presents the steps taken by management to mitigate or eliminate such risks.

Our Board does not have a standing risk management committee, but rather administers this oversight function directly through our Board as a whole, as well as through various standing committees of our Board that address risks inherent in their respective areas of oversight. In late 2022, we completed an Enterprise-wide risk assessment to identify areas that identified the primary risks that could impede us from achieving our strategic objectives. The risk assessment followed a disciplined approach and included interviews with senior leadership to identify and assess the significance of enterprise-wide risks at the Company. Such identification and assessment facilitates planning and accountability on how to manage and ameliorate such risks. The assessment was reviewed with the Audit Committee in early 2023 and will be updated at least annually. While our Board is responsible for monitoring and assessing strategic risk exposure, our Audit Committee is responsible for overseeing our major financial risk exposures and the steps our management has taken to monitor and control these exposures. The Audit Committee also monitors compliance with legal and regulatory requirements and considers and approves or disapproves any related person transactions. Our Nominating and Corporate Governance Committee monitors the effectiveness of our corporate governance guidelines and considers and approves or disapproves any related person transactions where necessary. Our Compensation Committee assesses and monitors whether any of our compensation policies and programs has the potential to encourage excessive risk-taking.

Our Environmental, Social and Governance Principles

We believe in operating in an ethical, socially conscious, and environmentally sustainable manner and follow these principles to better serve our patients, employees, and all our stakeholders. From the initial founding of Arcutis, our business and people have strived to create an environment where diversity, inclusion, innovation and sustainability are integrated into all aspects of our operations. This is evidenced by the treatments we have developed to meet unmet needs of dermatology clinicians and individuals impacted by immune-mediated skin disease, the diverse talent of our employees, our strong commitment to our community and the environment, and our diverse and experienced Board.

Governance

Board oversight of our ESG program is provided by the Nominating and Corporate Governance Committee. Their charter includes evaluating and overseeing our ESG principles, initiatives, and risks. Where appropriate, ESG matters are also discussed within the Audit and Compensation committees and annually an ESG report is provided to the Board. Internal oversight and execution is managed with a cross-functional team led by our Head of ESG, and includes our General Counsel, Vice President of Human Resources, Head of Corporate Communications, and Head of Investor Relations.

In 2022, we published our first ESG report, highlighting the many initiatives and successes of Arcutis within the ESG space.

Our Commitment to Diversity

We believe that the diversity of our employees supports our ability to develop innovative medicines while also making our company stronger. We value our employees and the diversity each employee brings, including, but not limited to, diversity of race, gender, age, sexual orientation, backgrounds, experiences, skills, opinions and personalities.

Gender Diversity

The charts below set forth the gender diversity of our overall workforce, leadership positions and Board, in each case as of December 31, 2022, using the gender binary.

(1) Includes employees in positions of Vice President and above.

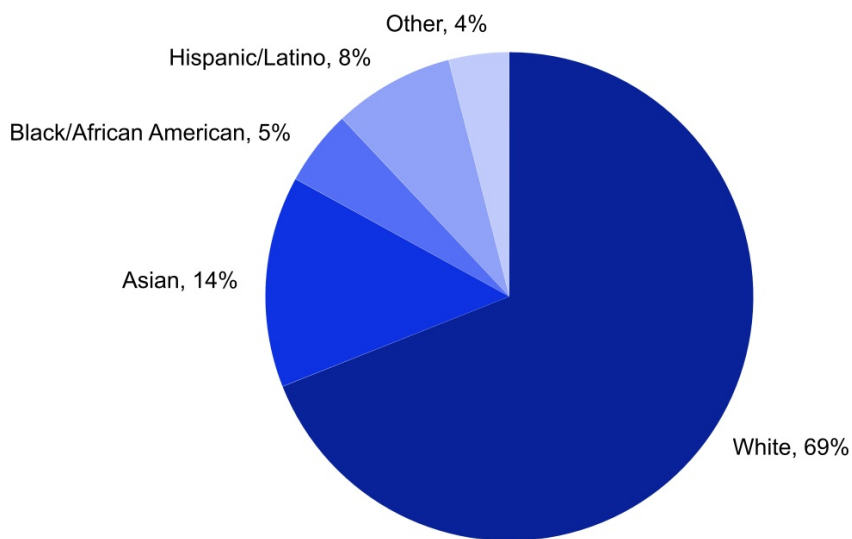

Racial and Ethnic Diversity of Workforce in United States

In the United States, where 96% of our employees reside, 31% of our workforce self-report as non-white. For employees located outside of the United States, we do not request racial diversity data, as tracking these metrics is largely prohibited by law. The chart below sets forth the racial and ethnic diversity of our workforce in the United States as of December 31, 2022.

(1) Includes employees in positions of Vice President and above.

The categories of the racial and ethnic diversity of our workforce in the United States can be further broken down as shown in the graph below.

Pay Equity Assessment

As part of our commitment to pay equity and equality across all employees, we have committed to conducting an annual pay equity assessment to identify and address potential pay gaps. Our first assessment was conducted in 2022 for United States employees below the Senior Vice President level, and no evidence of a systemic pay equity issue was found. More information on this assessment can be found in the Compensation Discussion and Analysis section of this proxy.

Professional Development

As Arcutis continues to expand our workforce, we recognize the need to provide opportunities for our people to grow and develop professionally. We have a professional development program with a mission to support a continuous learning culture to enhance awareness, competence, performance and innovation. Our professional development program focuses on three key objectives:

Grow (Career Development)	Connect (Organization Effectiveness)	Lead (Leadership Training)
<ul style="list-style-type: none"> Identify personal career goals and aspirations Promote discussion opportunities between managers and employees 	<ul style="list-style-type: none"> Enhance connection across a common platform for improving communication, collaboration and positive working relationships 	<ul style="list-style-type: none"> Support leadership development and effectiveness for leaders at all levels
Tools used: <ul style="list-style-type: none"> Personal inventory of skills and interests supported by conversation guides for managers and employees 	Tools used: <ul style="list-style-type: none"> Insights® Discovery individual profiles and team workshops 	Tools used: <ul style="list-style-type: none"> Intent Based Leadership® workshops and resources

Our professional development program was started in 2021 and continues to evolve with the company. All Arcutis employees continue to participate in the Insights® Discovery program, as well as participate in mid-year and end-of-year performance reviews to review performance and development opportunities. In 2023, manager development courses are being implemented for all front-line managers.

In addition to these company-wide professional development activities, Arcutis is also a corporate sponsor of the Healthcare Businesswomen’s Association (“HBA”) and Women in Bio. We encourage and sponsor participation in the HBA, #IamRemarkable, and the HCL Technologies’ Women Lead mentoring program.

Arcutis Culture Team and Community Engagement

Since 2020, our Arcutis Culture Team (ACT) has been engaged to plan, coordinate and communicate ESG and employee engagement opportunities. ACT represents a cross-section of levels and functions to integrate and facilitate the education of our employees and provide opportunities to strengthen our employee community. In 2022, ACT reorganized into three sub-teams focused on Diversity, Equity, and Inclusion; Employee Engagement; and Charity and Community Engagement. 2022 also saw the founding of our company’s first employee-coordinated Connection Group, or affinity/interest group, and ended the year with three groups focused on varying interests of our employees. Throughout the year, the Company celebrated many diverse cultures and activities such as Black History Month, PRIDE month, International Women’s Day, Asian American and Pacific Islander Month, and Hispanic Heritage Month, to name a few.

We believe in supporting the communities where we work and live. In 2022, our people volunteered for over 1,200 hours to numerous organizations throughout the United States and gave monetary donations to nearly 100 separate organizations covering a wide range of philanthropic areas. In addition, we supported both national and local organizations ranging from the National Psoriasis Foundation to our local Manna food drive.

Health and Safety

We are also focused on the health, well-being and safety of our employees. Our policies seek to prevent and reduce workplace risks and injuries through various programs, projects, services, and assistance, such as ergonomic evaluation, hazard reporting, risk assessment, and first aid training. Employee safety is also supported by an access control system at all facilities and a dedicated 24/7 security team at our offices in Westlake Village. We require all work-related injuries or illnesses to be reported. This information is reviewed by management for analysis.

Access to and Affordability of Our Product

Providing access to our product is paramount to our business. Two initiatives were founded in 2022 with the commercialization of our first product. Our patient assistance program, Arcutis Cares™, provides Zoryve® (roflumilast) cream 0.3% at no cost to eligible uninsured or underinsured patients with plaque psoriasis with demonstrated financial need. ZORYVE Direct™, a patient access support program, helps commercially insured individuals with plaque psoriasis get access to start ZORYVE treatment as prescribed by their healthcare provider quickly and easily by helping them navigate the payer process, lowering the out-of-pocket cost for eligible patients, and offering programs that support staying on therapy.

Environmental

We have initiated an assessment of our greenhouse gas emissions footprint, in order to develop a methodology for collection and reporting. Through internal resources and third-party relationships, we are confident in our ability to quantify our scope 1 and 2 emissions while continuing to evaluate and understand our supply chain. We have also worked with our third-party suppliers to understand their sustainability practices. In addition, we have limited our environmental footprint by operating in a hybrid and virtual work environment. Our policies and work habits encourage environmentally conscious activities, such as reduced printing, automatic lights and automatic water taps, recycling, and the elimination of single-use items in our break room. We believe these policies have helped to reduce waste generated through our operations.

Compensation Committee Interlocks and Insider Participation

During 2022, our Compensation Committee consisted of Dr. Chaudhuri, Mr. Heron and Mr. Leonard. None of the members of our Compensation Committee has been one of our officers or employees during the past three years. With the exception of Mr. Watanabe who serves as our President, Chief Executive Officer and a director, none of our executive officers currently serve, or in the past fiscal year has served, as a member of the board of directors or compensation committee of any entity that has one or more executive officers on our Board or Compensation Committee.

Pledging and Hedging Policies

We maintain an Insider Trading Compliance Policy that prohibits our employees, officers and directors from engaging in hedging or similar monetization transactions, including put options, call options, short sales and exchange fund transactions. Our policy also prohibits employees, officers and directors from using or pledging securities as collateral in margin accounts or for loans unless approved by our designated compliance officer under the policy.

Should stockholders wish to communicate with the Board or any specified individual directors, such correspondence should be sent to the attention of the Corporate Secretary, at 3027 Townsgate Road, Suite 300, Westlake Village, CA 91361. The Corporate Secretary will forward the communication to the Board members.

2022 Executive Compensation Program Highlights

Cash Compensation

Historically, our compensation program has consisted of relatively modest cash compensation and has emphasized equity compensation consistent with common practices for other pre-IPO companies. Subsequent to our initial public offering (IPO) in 2020, our compensation program continues to emphasize equity compensation, however, in 2022 we continued our multi-step process to better align the cash compensation for our named executive officers with competitive market practices of comparable public companies. For 2022, we increased the base salaries of our continuing named executive officers by approximately 3.8% to 14.5%. The largest increases were to our CEO and to our CFO, both of whom remained below the median of our peer group. We did not increase the target bonus opportunity for any of our named executive officers for 2022.

Equity Awards

Our continuing named executive officers received 2022 annual equity awards in a mix of stock options and RSUs, at grant values below or slightly below the median of the 2022 peer group. We also awarded a new hire grant consisting of a mix of time- and performance-based long-term equity in the form of options and RSUs to our SVP, General Counsel in connection with the commencement of his employment.

Performance Results and Payouts

We had a strong year of execution across all departments and achieved our annual 2022 corporate goals at 115% of target.

Executive Compensation Philosophy and Objectives

Historically, our executive compensation program has been designed to motivate, reward, attract and retain high caliber management who create an inclusive and diverse environment and are deemed critical to our success. The program seeks to align executive compensation with our short-and long-term

objectives, financial performance and stockholder priorities. Our compensation objectives are designed to support these goals by:

- Attracting, retaining and motivating superior executive talent;
- Providing fair and competitive compensation packages that are designed to incentivize executives to drive company performance;
- Focusing on variable compensation that rewards the achievement of short-term and long-term goals and emphasizing our commitment to pay-for-performance; and
- Aligning our executives' interests with those of our stockholders to ensure that their compensation is meaningfully related to increasing shareholder value.

In keeping with our role as a publicly-held company, we maintain a commitment to strong corporate governance in connection with our named executive officer compensation arrangements where our Compensation Committee works with management to develop and maintain compensation frameworks that are appropriate and competitive for a public company. Our Compensation Committee works with Pay Governance, the Compensation Committee's compensation consultant, to formalize our compensation philosophy and implement compensation arrangements that reflect that philosophy.

Our Compensation Committee reviews our executive compensation program to ensure our practices align the interests of our directors and executive officers with our stockholders. Below are features of our compensation program which the Compensation Committee believes demonstrate our commitment to link executive compensation to performance and to incentivize the creation of stockholder value.

What We Do	What We Do Not Do
ü Emphasize performance-based, at-risk compensation.	☒ Grant uncapped cash incentives or guaranteed equity compensation.
ü Emphasize the use of equity compensation to promote executive retention and reward long-term value creation.	☒ Guarantee executive officers annual salary increases or bonuses.
ü Weight the overall pay mix toward long-term incentive compensation for senior executives.	☒ Provide excessive perquisites.
ü Establish incentive compensation programs based on metrics that are aligned with our corporate strategy and designed to grow stockholder value.	☒ Provide any compensation-related tax gross-ups.
ü Structure change in control severance payments as “double-trigger”, requiring both a change in control and an involuntary termination for payout.	
ü Maintain an Insider Trading Compliance Policy that prohibits employees, officers and directors from engaging in hedging or pledging transactions.	
ü Maintain a Clawback Policy that allows the Company to seek to recover certain incentive compensation paid to its officers in situations where “Recoverable Events” have taken place.	
ü Maintain a Stock Ownership Guidelines policy to align the long-term interests of senior executives and non-employee directors with those of the Company's shareholders.	
ü Maintain a Compensation Committee comprised entirely of independent directors.	
ü Engage an independent compensation consultant to advise our Compensation Committee.	
ü Hold an annual say on pay stockholder vote.	
ü Conduct annual pay equity assessments.	

How We Determine Executive Compensation

Role of the Compensation Committee, Board of Directors, and Executive Officers

The Compensation Committee oversees and recommends to the board of directors approval of all compensation arrangements for our executive officers, including our named executive officers. The Compensation Committee meets throughout the year to discuss and review our executive compensation program, and typically makes decisions on base salary, annual bonus, and equity awards for our continuing named executive officers in the first quarter of the year. As further described below, the Compensation Committee considers market data and input from its independent compensation consultant, Pay Governance, and other advisors including in reviewing the competitiveness of individual compensation packages relative to peer company data and factors including the performance and

contributions of each named executive officer, our corporate performance and each individual's responsibilities, experience, and criticality to our business strategy.

For our 2022 compensation program, our Chief Executive Officer provided an assessment of these factors and made recommendations to the Compensation Committee to assist in determining fiscal 2022 compensation levels for the named executive officers other than himself. While the Compensation Committee and board of directors utilized this information, the ultimate decisions regarding fiscal 2022 executive compensation were made by the Compensation Committee and board of directors in their own independent judgment. With respect to our Chief Executive Officer's performance, the Compensation Committee considers input from the other independent members of the Board.

Our Compensation Committee regularly meets in executive session without management. While various members of management may attend committee meetings, none of our named executive officers was present during the Compensation Committee's determinations regarding their own compensation.

Role of Compensation Consultant

The Compensation Committee has retained the services of Pay Governance as our independent compensation consultant. Pay Governance assists the Compensation Committee in its review of executive and director compensation practices, including the market competitiveness of compensation, executive compensation design, benchmarking with industry peers, and other technical considerations including those related to tax and accounting.

For fiscal 2022, Pay Governance advised and assisted with the following:

- Providing fair and competitive compensation packages that are designed to incentivize executives to drive company performance;
- Development of a peer group to be used in the evaluation of 2022 executive and director compensation;
- Market analysis of executive officer compensation compared to our peer group;
- Market analysis of long-term incentive compensation of our executive officers compared to our peer group; and
- Market analysis of director compensation compared to our peer group.

The Compensation Committee regularly evaluates the services Pay Governance provides and has final authority to engage and terminate their services. Our Compensation Committee has assessed Pay Governance's independence consistent with Nasdaq listing standards and has concluded that the engagement of Pay Governance does not raise any conflict of interest.

Competitive Assessment

A key objective of our executive compensation program is to ensure that the overall compensation packages we offer our executive officers remain competitive with the packages offered by companies with which we compete for executive talent. The Compensation Committee consults with Pay Governance to develop a peer group of companies to serve as the basis for comparing our executive compensation program to the market.

2022 Peer Group

With the assistance of Pay Governance, the Compensation Committee annually reviews the composition of the peer group to account for changes in both our business and the businesses of the companies in the peer group. While referencing peer group compensation levels is helpful in determining market-competitive compensation for our named executive officers, the Compensation Committee and board of directors do not directly tie any pay elements to particular benchmarks within the peer group.

Rather, peer data is one consideration, along with employee knowledge, skills, experience, individual performance, and scope of responsibilities, among other factors.

In developing the 2022 peer group, the Compensation Committee considered several qualitative and quantitative elements. The targeted criteria set out below were guidelines, and not all companies selected met each of the selection criteria.

- **Industry** – biotechnology/biopharmaceutical companies, with preference for companies with dermatology-related products under development;
- **Market Capitalization** – companies within a market cap range of \$380 million to \$3.4 billion (~1/3 to 3x our valuation at the time the peer group was developed);
- **Stage of Development** – later stage, pre-commercial or limited revenue companies with a significant ongoing research and development spend;
- **Maturity** – companies completing IPOs within the five years of Arcutis' 2020 IPO;
- **Location** – strike a balance between companies with Southern and Northern California locations (with other U.S. geographies included as needed);
- **Headcount** – between 50 and 500 employees.

Following this analysis, the Compensation Committee identified the following 17 publicly-traded, U.S.-based biotechnology/biopharmaceutical companies as our peer group to be used in reviewing executive compensation for 2022:

2022 Peer Group

Aclaris Therapeutics	Alector	AnaptysBio
Arena Pharmaceuticals	Atara Biotherapeutics	BridgeBio Pharma
Cara Therapeutics	Kadmon Holdings	Karuna Therapeutics
Kodiak Sciences	Krystal Biotech	Kura Oncology
MannKind Corporation	Revance Therapeutics	Rocket Pharmaceuticals
Vanda Pharmaceuticals	Y-maBs Therapeutics	

AVROBIO, Corbus Pharmaceuticals and Puma Technology were removed from our peer group for 2022 as a result of sharp decreases in their market capitalizations where they were no longer in our targeted range. Viela Bio was removed from our peer group for 2022 as a result of their acquisition by Verizon in 2021. In lieu of these four companies, we have added in Aclaris Therapeutics, Alector, Arena Pharmaceuticals (acquired by Pfizer in May 2022; will be removed from future peer group) and Vanda Pharmaceuticals to our 2022 peer group.

Our Compensation Committee expects to periodically review and update this peer group and to utilize Pay Governance for benchmarking and peer group analysis in determining and developing compensation packages for our named executive officers.

Elements of Executive Compensation

Historically, and for fiscal 2022, our executive compensation program consisted of the following elements, each established as part of our program in order to achieve the compensation objective specified below:

Compensation Element	Compensation Objectives Designed to be Achieved and Key Features
Base Salary	Attract and retain key talent by providing base cash compensation at competitive levels.
Cash-Based Annual Incentive Compensation	Motivate and reward attainment of rigorous annual corporate performance goals identified as strategic drivers of long-term value creation.
Equity-Based Incentive Compensation	Provide long-term incentives in the form of equity-based compensation to drive an ownership mentality, encourage retention, provide strong alignment with shareholders and reinforce the importance long-term shareholder value creation.
Severance and Other Benefits Potentially Payable upon Termination of Employment or Change in Control	Create clarity around termination or change of control events and provide for retention of executives.
Health and Welfare Benefits	Attract and retain key talent by providing a competitive benefits package.

Our Compensation Committee has not established formal policies or guidelines for allocating compensation between annual and long-term incentive compensation, or between cash and non-cash compensation. Instead, through our compensation program, the Compensation Committee seeks to align pay and performance.

As can be seen in the graphs below, a large percentage of executive pay in 2022 was variable and “at-risk” (87% for the Chief Executive Officer, and 74% on average for our other named executive officers), meaning that value to the executive is tied directly to corporate goals and stock price performance. In this sense, we believe we have established a pay-for-performance culture and pay program. The balance between these components may change from year to year based on corporate strategy and objectives, among other considerations.

CEO Pay Mix

Other NEO Pay Mix

The equity awards granted to the other NEOs who were employed by the Company for the entirety of 2022, including the CEO, were comprised of a mix of RSUs and options.

Base Salaries

The base salaries of our named executive officers are a modest, but important part of their total compensation package, and are intended to reflect their respective positions, duties and responsibilities. Base salary is a visible and stable fixed component of our compensation program. Base salaries for our named executive officers were initially established by the Compensation Committee and/or board of directors at the time each executive was hired.

In reviewing and adjusting base salaries for 2022, the Compensation Committee considered current market data as well as each named executive officer's total cash compensation (consisting of base salary and target bonus opportunity) and individual performance.

Subsequent to our IPO in 2020, we began a multi-step process to better align the base salaries of our named executive officers with competitive market practices of comparable public companies. In connection with this approach and based on the performance of the company and our named executive officers in 2021, we increased the base salaries of our continuing named executive officers by approximately 3.8% to 14.5% during 2022.

The largest increases were to our CEO and to our CFO, both of whom remained below the median of our peer group.

The following table sets forth the base salaries of our named executive officers for fiscal 2022:

Named Executive Officer	2021 Base Salary	2022 Base Salary	Year-over-Year % Increase
Todd Franklin Watanabe (1)	\$540,000	\$600,000	11.1%
Masaru Matsuda, J.D. (2)	—	\$415,000	—%
Patrick Burnett, M.D., Ph.D. (1)	\$443,000	\$465,000	5.0%
Kenneth Lock (1)	\$380,000	\$395,000	3.9%
Scott Burrows (1)	\$345,000	\$395,000	14.5%

(1) Salary increases for Mr. Watanabe, Mr. Burnett, Mr. Burrows, and Mr. Lock went into effect on March 1, 2022.

(2) Mr. Matsuda joined the Company in January 2022.

Cash-Based Incentive Compensation

The Company maintains a cash annual incentive compensation program, whereby our named executive officers are eligible to receive cash incentive bonuses payable upon the achievement of specified annual corporate performance goals.

Annual Corporate Performance Goals

The Compensation Committee works with the executive team to develop goals with respect to the Company's annual incentive compensation program and ultimately recommends a list of goals to the board for approval. The board reviews the strategic, operational and financial components of the goals and approves the goals as well as a weighting for each goal based on its relative importance. Our Chief Executive Officer and executive team provide updates to the board through the course of the year on performance towards these goals. At the end of the year, our Chief Executive Officer presents the Compensation Committee with a proposed score based on the Company's performance against the goals. After discussion and review, the Compensation Committee recommends to the board for approval the overall corporate achievement score compared to the annual performance goals. This score is then used to establish the annual bonus payments for each named executive officer.

Annual Bonus Process

The Compensation Committee considers input from the Chief Executive Officer when reviewing the annual performance and compensation reviews for our executive officers, and considers input from the non-employee members of our board relative to the performance and compensation of our Chief Executive Officer. The Compensation Committee reviews base salary, annual bonus and equity-based compensation annually as part of this review. The review is typically conducted over a series of meetings beginning at the end of the year and as part of the Company's broader annual performance review process. The annual corporate score which is determined as described above in "Annual Corporate Performance Goals" is used to determine the size of the Company-wide bonus pool. Our Chief Executive Officer and named executive officers receive a bonus based entirely on corporate performance since they have ultimate operational responsibility for corporate performance. The Compensation Committee retains flexibility to increase or decrease any and all compensation components to reflect performance.

2022 Bonus Targets

We consider annual cash incentive bonuses to be an important component of our total compensation program that provide incentives necessary to retain executive officers. Each named executive officer is eligible to receive an annual performance-based cash bonus based on a specified target annual bonus award amount, expressed as a percentage of the named executive officer's base salary. Bonus targets are reviewed annually by the Compensation Committee, taking into consideration competitive market data, and adjusted if deemed appropriate by the Compensation Committee. In fiscal 2022, our named executive officers participated in our annual cash incentive bonus program at the following target percentages of base salary:

Named Executive Officer	2022 Bonus Target
Todd Franklin Watanabe	60%
Masaru Matsuda, J.D.	40%
Patrick Burnett, M.D., Ph.D.	40%
Kenneth Lock	40%
Scott Burrows	40%

2022 Corporate Goal Development and Weighting

We provide our executive officers the opportunity to receive annual cash incentives that are intended to encourage the achievement of corporate performance objectives. In January 2022, the Compensation Committee set the performance objectives for fiscal 2022, which mainly fell into five categories: (i) launch roflumilast (ARQ-151) for plaque psoriasis, (ii) progress roflumilast follow-on indications, (iii) advance the pipeline, (iv) finance and business development, and (v) build and scale corporate infrastructure. Our Corporate Bonus Plan provides the opportunity to achieve the maximum potential bonus of 150% overall if pre-specified stretch objectives are achieved. The charts below summarize our performance objectives, weightings and attainment under our Corporate Bonus Plan for fiscal 2022.

Launch Roflumilast for Plaque Psoriasis

FDA Approval in Plaque Psoriasis

Gained FDA approval on July 29, 2022 for the treatment of plaque psoriasis in adolescent and adult patients.

Commercial and Operational Execution

Upon approval, it was important for us to get product out into the market quickly so that plaque psoriasis patients in need could get access to product. We were able to get commercial product in channel within 7 business days of approval and shipped approximately 16,000 units of product through year end 2022, slightly under target. Net revenue of \$3.1 million in 2022. Achieved coverage with one major payor in 2022 and instituted a patient assistance program, which provides Zoryve® (roflumilast) cream 3% a no cost for financially eligible patients who are uninsured or underinsured.

Progress on Roflumilast Follow-on Indications

Completion of Key Clinical Trials

We delivered on our roflumilast clinical development program as follows:

Roflumilast cream formulation:

On November 15, 2022 and December 12, 2022, we announced positive topline data for roflumilast cream 0.15% for each of the two phase 3 trials in atopic dermatitis (AD) in adults and children 6 years and older, demonstrating significant improvement in signs and symptoms of AD at 4 weeks, including itch, with favorable safety and tolerability.

On December 19, 2022, we announced the submission of a supplemental NDA to the FDA to expand the indication of roflumilast cream 0.3% for the treatment of plaque psoriasis in children down to 2 years of age.

Roflumilast foam formulation:

We have also advanced the development of our roflumilast foam 0.3% formulation, with phase 3 results in two separate indications that should provide the basis for NDA and sNDA submissions for this product.

On June 6, 2022, we announced positive topline data on our roflumilast foam phase 3 trial for the treatment of seborrheic dermatitis in adults and adolescents, demonstrating substantial improvement in the most important signs and symptoms of seborrheic dermatitis, including itch, with favorable tolerability and safety.

On September 26, 2022, we announced positive topline data on our roflumilast foam phase 3 trial in scalp and body psoriasis in adults and adolescents, demonstrating strong efficacy, as well as favorable safety and tolerability in the treatment of signs and symptoms of plaque psoriasis in all of these body areas.

Continuous Supply of Clinical Materials

In addition to meeting all commercial launch supply needs, we were able to continue delivering on all supply needs for the Company's clinical development program in 2022.

Advance the Pipeline

Progress on Early Pipeline Programs

We advanced the Arcutis pipeline. We submitted the IND for ARQ-255, our topical JAK inhibitor therapy specifically designed as a potential treatment for alopecia areata. On December 5, we announced the enrollment of the first subject in our first-in-human Phase 1b study evaluating the safety, tolerability, and PK of ARQ-255 in healthy adult volunteers and individuals with patchy alopecia areata.

In addition, we also formulated a new product candidate for IND-enabling studies.

Further, we completed the acquisition of Ducentis Biotherapeutics Ltd. in September 2022 which brought to us a pre-clinical asset, now ARQ-234, a fusion protein that is a highly selective and potent checkpoint agonist. This offers a potential best-in-class profile in moderate-to-severe atopic dermatitis, and is highly complementary to roflumilast cream in that potential indication.

Finance & Business Development

Raise Funds Across Financing Alternatives

During 2022, we raised over \$300 million to fund our commercial launch and pipeline activities. This included over \$185 million in equity financing, primarily from a successful \$172 million follow-on financing after the approval of ZORYVE. We also received \$125 million from Tranche B of our credit facility, which was contingent on U.S. regulatory approval of roflumilast in plaque psoriasis.

Manage Cash Within a Range of Budget

We have implemented rigorous financial planning and reporting processes to ensure that our expenditures are in-line with the budget and priorities of the Company as approved by the Board of Directors.

Build and Scale Corporate Infrastructure

Information Technology Solutions

Innovation is in our blood. We developed Information Technology Solutions for (i) our commercial launch of roflumilast, through the build of a commercial data and analytics solution that provides visibility into our launch trajectory and patient demand metrics, and (ii) our clinical trial program, through the development of a set of data driven tools to accelerate our clinical patient recruitment effort.

Environmental, Social and Governance (ESG)

In 2022, consistent with our ESG Principles, we built and scaled our processes and systems as we evolved from a development to an early commercial organization. The following evidence how we built and scaled:

- We developed a Commercial Quality Management System (QMS) - the required regulatory infrastructure for monitoring the quality of our commercial product.
- We scaled and evolved the processes and policies underlying our corporate healthcare compliance program.
- We conducted and improved year over year on the score of our Arcutis Operating Principles survey with an employee participation rate of nearly 95%. This survey provides data to maintain our company culture, our high level of performance, and staff retention as the Company continues to grow.

Evaluation of Performance Against 2022 Corporate Goals

In January 2023, the board evaluated the Company's performance against the above goals and determined that the Company had achieved corporate goals for fiscal 2022 at 115% of target levels.

In consideration of the foregoing, in March 2023, pursuant to the terms and conditions of the applicable annual bonus guidelines, the Board approved annual cash bonus payments for each named executive officer as reflected in the table below.

Named Executive Officer	2022 Bonus Target	Corporate Goal Score Modifier	2022 Actual Bonus Paid as % of Salary	2022 Actual Bonus Paid (1)
Todd Franklin Watanabe	60%	115%	69%	\$407,100
Masaru Matsuda, J.D.	40%	115%	46%	\$190,901
Patrick Burnett, M.D., Ph.D.	40%	115%	46%	\$210,297
Kenneth Lock	40%	115%	46%	\$180,550
Scott Burrows	40%	115%	46%	\$177,867

(1) 2022 bonuses were paid in March 2023 and were calculated by multiplying each NEO's actual base salary earned in 2022 by their 2022 bonus target, and multiplying the resulting value by the corporate goal score modifier.

2023 Annual Incentive Compensation Program

In March 2023, the Board also approved an annual incentive compensation program for 2023 for our NEOs on substantially similar terms and conditions as our 2022 annual incentive compensation program described above and with slightly increased 2023 bonus targets..

Equity-Based Incentive Compensation

We view equity-based compensation as a critical component of our balanced total compensation program. Equity-based compensation creates an ownership culture among our employees that provides an incentive to contribute to the continued growth and development of our business and aligns the interests of executives with those of our stockholders. In evaluating the mix of equity awards for 2022, the Compensation Committee considered market trends as well as practices of our peer group companies, and determined that a mix of stock options, restricted stock units and where appropriate, performance-based options, would be the most appropriate incentive structure for our named executive officers to reward performance over time and achieve our retention objectives. We do not currently have any formal policy for determining the number of equity-based awards to grant to named executive officers.

Stock Options

The Compensation Committee and Board grant stock options to emphasize retention and align the named executive officers' interests with those of stockholders. These awards provide a necessary balance between performance-based and time-vesting awards. Stock option awards will generally be fully vested four years after the option grant date, subject to continuous service.

Restricted Stock Units

Restricted stock unit (RSUs) are an important retention vehicle for named executive officers, as well as a variable and at-risk component of executive compensation. Market trends reflect their favored use among our peer group and other companies in the biotechnology sector. RSU awards will generally be fully vested four years after the RSU grant date, subject to continuous service.

Performance-Based Equity

In certain cases, the Compensation Committee and/or the Board grant performance-based stock options or performance-based restricted stock units (PSUs) that begin vesting upon the completion of specific performance criteria and generally vest over the following four years, subject to continuous service. Performance-based grants align the named executive officers' interests with those of stockholders.

In connection with Mr. Matsuda commencing services as our General Counsel and Corporate Secretary in January 2022, our Compensation Committee and Board granted him 39,000 PSUs. The PSUs were to become earned based on the achievement of specified performance targets: (i) 19,500 PSUs were to become earned upon approval by the Audit Committee of the Company's commercial launch compliance program and (ii) 19,500 PSUs were to become earned upon the execution of the first key payor contract with a top plan. The first performance target was achieved on May 27, 2022. The second performance target was achieved on November 18, 2022. Upon the date of achievement of each respective performance target, the first 25% of each applicable grant vested and the remaining portion of each grant will vest in equal 25% installments on each subsequent one year anniversary for the remaining three-year period, subject to Mr. Matsuda's continuous service to the Company through each vesting date.

Equity Grants

The following table sets forth the equity awards granted to our named executive officers in the 2022 fiscal year.

Our employee benefit programs are designed to provide a competitive level of benefits to all of our full-time employees, including our named executive officers. All full-time employees are eligible to participate in our health and welfare plans, including:

- Medical, dental, and vision benefits;
- Medical and dependent care flexible spending accounts;
- 401(k) retirement savings plan, pursuant to which we make matching safe-harbor contributions under our 401(k) plan at 100% of the first 3% of each participant's contributions, plus 50% of each participant's next 2% of contributions, for a maximum aggregate matching contribution of 4%;
- Long-term disability insurance; and
- Life insurance.

We believe the benefits described above are necessary and appropriate to provide a competitive compensation package to all of our full-time employees.

Perquisites and Other Personal Benefits

Currently, we do not view perquisites or other personal benefits as a significant component of our executive compensation program. Accordingly, we do not generally provide perquisites or other personal benefits to our executive officers, including our named executive officers, except as generally made available to our employees, or in situations where we believe it is appropriate to assist an individual in the performance of his or her duties, to make our executive officers more efficient and effective and for recruitment and retention purposes.

In connection with travel to and from our corporate headquarters, we have reimbursed the following named executive officers for travel and housing expenses as follows:

All future practices with respect to perquisites or other personal benefits will be approved and subject to periodic review by the Compensation Committee.

Employment and Severance Arrangements

We have entered into employment agreements with all of our named executive officers, which provide for base salaries, target cash incentives, and benefit plan participation, as well as certain additional benefits as described below. We entered into a new employment agreement with Mr. Matsuda in connection with him joining the Company in January 2022 and have described such agreement in detail below.

The Watanabe Continued Employment Agreement outlined his initial base salary and target bonus opportunity, as well as the opportunity to continue participating in our employee benefit plans. In a November 2020 First Amendment to Continued Employment Letter, we amended the agreement to indicate that Mr. Watanabe's Principal Place of Employment is now in Utah and not California.

Under Mr. Watanabe's severance and change in control agreement (the "Watanabe Severance and Change in Control Agreement") that went into effect on the date of our initial public offering, he is entitled to certain benefits in the event of a termination of employment with cause, or resignation for good reason (both during and outside a change in control).

We may elect that, in lieu of paying or reimbursing the premiums, we shall instead provide Mr. Watanabe with a monthly cash payment equal to the amount we would have otherwise paid for his monthly premium, less applicable tax withholdings.

In the event of a qualifying termination (i) within eighteen (18) months following a change in control or (ii) within three (3) months preceding a change in control, Mr. Watanabe will be entitled to receive the following benefits:

- Severance pay in an amount equal to eighteen (18) months of his base salary rate in effect immediately prior to the qualifying termination plus 1.5 times his annual bonus amount for the then-current fiscal year based on 100% of target performance, paid out in substantially equal installments over an eighteen-month period;

Masaru Matsuda, J.D.

In addition, the Matsuda Employment Agreement provides for reimbursement by us for travel expenses incurred for travel to and from, and housing, at our corporate headquarters, in accordance with the Company's expense reimbursement policy, as in effect from time to time.

Under Mr. Matsuda's severance and change in control agreement (the "Matsuda Severance and Change in Control Agreement") that went into effect in January 2022, he is entitled to certain benefits in the event of a termination of employment with cause, or resignation for good reason (both during and outside a change in control).

In the event of a qualifying termination outside of a change in control period, including resignation for good reason, Mr. Matsuda will be entitled to receive the following benefits:

- Severance pay in the form of continuation of his base salary rate in effect immediately prior to the qualifying termination for nine (9) months following termination; and

We may elect that, in lieu of paying or reimbursing the premiums, we shall instead provide Mr. Matsuda with a monthly cash payment equal to the amount we would have otherwise paid for his monthly premium, less applicable tax withholdings; and
- Full acceleration and immediate exercisability, if applicable, of all unvested equity awards subject to time-based vesting conditions, as well as the performance-based stock options granted on January 3, 2022.

The amounts set forth above are subject to Mr. Matsuda's timely delivery to us of a general release of claims that becomes effective and irrevocable.

Patrick Burnett, M.D., Ph.D.

We entered into an executive employment agreement with Dr. Burnett, our Senior Vice President and Chief Medical Officer, in July 2020 (the "Burnett Employment Agreement") in connection with him joining us in August 2020. The Burnett Employment Agreement outlined his initial base salary and target bonus opportunity, as well as the opportunity to participate in our employee benefit plans. In addition, the Burnett Employment Agreement provides for reimbursement by us for travel expenses incurred for travel to and from, and housing, at our corporate headquarters, up to a maximum of \$5,000 per month.

We may elect that, in lieu of paying or reimbursing the premiums, we shall instead provide Dr. Burnett with a monthly cash payment equal to the amount we would have otherwise paid for his monthly premium, less applicable tax withholdings.

In the event of a qualifying termination (i) within eighteen (18) months following a change in control or (ii) within three (3) months preceding a change in control, Dr. Burnett will be entitled to receive the following benefits:

In addition, the Lock Continued Employment Agreement provides for reimbursement by us for travel expenses incurred for travel to and from, and housing, at our corporate headquarters, up to a maximum of \$4,000 per month..

Under Mr. Lock's severance and change in control agreement (the "Lock Severance and Change in Control Agreement") that went into effect on the date of our initial public offering, he is entitled to certain benefits in the event of a termination of employment with cause, or resignation for good reason (both during and outside a change in control).

In the event of a qualifying termination outside of a change in control period, including resignation for good reason, Mr. Lock will be entitled to receive the following benefits:

- Severance pay in the form of continuation of his base salary rate in effect immediately prior to the Qualifying Termination for nine (9) months following termination;
- Subject to Mr. Lock's timely election for continued coverage under COBRA, the Company shall pay, or reimburse, his monthly premium for him and his covered dependents under COBRA until the earliest of (a) nine (9) months, (b) the date when he receives similar coverage with a new employer, or (c) the expiration of his continuation coverage under COBRA. - Severance pay in an amount equal to twelve (12) months of his base salary rate in effect immediately prior to the qualifying termination plus his annual bonus amount for the then-current fiscal year based on 100% of target performance, paid out in substantially equal installments over an twelve-month period;
- Subject to Mr. Lock's timely election for continued coverage under COBRA, we shall pay, or reimburse, his monthly premium for him and his covered dependents under COBRA until the earliest of (a) twelve (12) months, (b) the date when he receives similar coverage with a new employer, or (c) the expiration of his continuation coverage under COBRA. We may elect that, in lieu of paying or reimbursing the premiums, we shall instead provide Mr. Lock with a monthly cash payment equal to the amount we would have otherwise paid for his monthly premium, less applicable tax withholdings; and
- Full acceleration and immediate exercisability, if applicable, of all unvested equity awards subject to time-based vesting conditions.

The amounts set forth above are subject to Mr. Lock's timely delivery to us of a general release of claims that becomes effective and irrevocable.

Scott Burrows

We entered into an employment agreement with Mr. Burrows, our Senior Vice President and Chief Financial Officer, in April 2019 (the "Burrows Employment Agreement"). The Burrows Employment Agreement outlined his initial base salary and target bonus opportunity, as well as the opportunity to participate in our employee benefit plans.

Under Mr. Burrows' severance and change in control agreement (the "Burrows Severance and Change in Control Agreement") that went into effect in April 2021 in conjunction with his promotion to Senior Vice President and Chief Financial Officer, he is entitled to certain benefits in the event of a termination of employment with cause, or resignation for good reason (both during and outside a change in control).

In the event of a qualifying termination outside of a change in control period, including resignation for good reason, Mr. Burrows will be entitled to receive the following benefits:

- Severance pay in the form of continuation of his base salary rate in effect immediately prior to the Qualifying Termination for nine (9) months following termination;
- Subject to Mr. Burrows' timely election for continued coverage under COBRA, the Company shall pay, or reimburse, his monthly premium for him and his covered dependents under COBRA until the earliest of (a) nine (9) months, (b) the date when he receives similar coverage with a new employer, or (c) the expiration of his continuation coverage under COBRA. The Company may elect that, in lieu of paying or reimbursing the premiums, the Company shall instead provide Mr. Burrows with a monthly cash payment equal to the amount the Company would have otherwise paid for his monthly premium, less applicable tax withholdings.

In the event of a qualifying termination (i) within eighteen (18) months following a change in control or (ii) within three (3) months preceding a change in control, Mr. Burrows will be entitled to receive the following benefits:

- Severance pay in an amount equal to twelve (12) months of his base salary rate in effect immediately prior to the qualifying termination plus his annual bonus amount for the then-current fiscal year based on 100% of target performance, paid out in substantially equal installments over an twelve-month period;
- Subject to Mr. Burrows' timely election for continued coverage under COBRA, we shall pay, or reimburse, his monthly premium for him and his covered dependents under COBRA until the earliest of (a) twelve (12) months, (b) the date when he receives similar coverage with a new employer, or (c) the expiration of his continuation coverage under COBRA. We may elect that, in lieu of paying or reimbursing the premiums, we shall instead provide Mr. Burrows with a monthly cash payment equal to the amount we would have otherwise paid for his monthly premium, less applicable tax withholdings; and
- Full acceleration and immediate exercisability, if applicable, of all unvested equity awards subject to time-based vesting conditions, as well as the performance-based stock options granted on August 24, 2021.

The amounts set forth above are subject to Mr. Burrows' timely delivery to us of a general release of claims that becomes effective and irrevocable.

Potential Payments Upon Termination or Change in Control

The amount of compensation and benefits payable to each named executive officer in various termination and change in control situations has been estimated in the tables below. The value of the option and RSU vesting accelerations was calculated for each of the tables below on the assumption that the change in control and executive's employment termination occurred on December 30, 2022. The closing price of our common stock on December 30, 2022 was \$14.80 (the last trading day in 2022), which was used as the value of our common stock in the change in control calculations. The value of the option vesting acceleration was calculated by multiplying the number of unvested option shares subject to vesting acceleration as of December 30, 2022 by the difference between the closing price of our common stock as of December 30, 2022 and the exercise price. No value is attributed to unvested options subject to acceleration which have exercise prices above the closing market price of our common stock on December 30, 2022. The value of RSUs was calculated by multiplying the number of unvested RSUs subject to vesting acceleration as of December 30, 2022 by the closing price of our common stock on December 30, 2022. The respective severance and change in control agreement for each named executive officer includes a modified cutback provision, such that if any severance payments or benefits would constitute a "parachute payment" and would be subject to the excise tax imposed by Section 4999 of the Code, the aggregate benefits will either be delivered in full or delivered in a lesser amount that would result in no portion of the aggregate benefits being subject to the excise tax, whichever results in the receipt by the named executive officer of the greatest amount of aggregate benefits on an after-tax basis. For purposes of the table set forth below, it has been assumed that the payments and benefits will not be reduced pursuant to the preceding sentence and, accordingly, include the full value of such payments and benefits.

- (4) During 2022, Mr. Lock was not enrolled in the Arcutis medical, dental, and vision health benefits plans.

Accounting and Tax Considerations

As a general matter, our Board of Directors review and consider the various tax and accounting implications of compensation programs we utilize.

Deductibility of Executive Compensation

Generally, Section 162(m) of the Code ("Section 162(m)") disallows a federal income tax deduction for public corporations of remuneration in excess of \$1 million paid in any fiscal year to certain specified executive officers. These executive officers include our chief executive officer, chief financial officer, and any employee who is among the three highest compensated executive officers for the taxable year (other than the chief executive officer and chief financial officer), regardless of whether the executive officer is serving at the end of the public company's taxable year and regardless of whether the executive officer's compensation is subject to disclosure for the last completed fiscal year under the applicable SEC rules (a "Covered Employee"). In addition, once an individual becomes a Covered Employee for any taxable year beginning after December 31, 2016, that individual will remain a Covered Employee for all future years, including following any termination of employment.

While we may take into account deductibility of compensation when making compensation decisions, our Compensation Committee believes that stockholder interests are best served if our Compensation Committee retains maximum flexibility to design executive compensation programs that meet stated business objectives. Therefore, our Compensation Committee has approved base salaries and other compensation awards for our executive officers that may not be fully deductible because of the deduction limit of Section 162(m) and expects in the future to approve additional compensation that is not deductible for federal income tax purposes.

Accounting for Stock-Based Compensation

We follow the Financial Accounting Standard Board's Accounting Standards Codification Topic 718 ("FASB ASC Topic 718") for our stock-based compensation awards. FASB ASC Topic 718 requires us to measure the compensation expense for all share-based payment awards made to our employees and non-employee members of our board of directors, including options to purchase shares of our common stock and other stock awards, based on the grant date "fair value" of these awards. This calculation is performed for accounting purposes and reported in the executive compensation tables required by the federal securities laws, even though the recipient of the awards may never realize any value from their awards.

Other Compensation Policies and Practices

• No Pledging, Hedging or Similar Monetization Transactions

We maintain an Insider Trading Compliance Policy that prohibits our employees, officers and directors from engaging in pledging Company securities, hedging or similar monetization transactions, including put options, call options, short sales and exchange fund transactions. Our policy also prohibits employees, officers and directors from using or pledging securities as collateral in margin accounts or for loans unless approved by our designated compliance officer under the policy.

• Clawback Policy

We maintain a Clawback Policy that allows the Company to seek to recover certain incentive compensation paid to its senior executives in situations where recoverable events have taken place.

• Stock Ownership Guidelines

We apply Stock Ownership Guidelines to senior executives, including NEOs, and non-employee directors to align their long-term interests with those of the Company's shareholders.

Compensation Risk Assessment

Consistent with the SEC's disclosure requirements, Pay Governance, our independent compensation consultant, assessed our compensation programs for all employees. We have concluded that our compensation policies and practices do not create risks that are reasonably likely to have a material adverse effect on us.

The Compensation Committee monitors our compensation programs on an annual basis and expects to make modifications as necessary to address any changes in our business or risk profile.

Pay Equity Assessment

In 2022, we retained Aon Human Capital Solutions to conduct a pay equity assessment of our United States employees below the Senior Vice President level. The purpose of this assessment was to identify potential pay gaps by analyzing whether factors like race, ethnicity or gender affect employee pay, while simultaneously controlling for factors that could legitimately influence compensation, such as function, pay grade, manager versus individual contributor, education, span of control, tenure in role, and experience. Aon utilized regression models to conduct the assessment and found no evidence of a systemic pay equity issue across Arcutis.

CEO Pay Ratio Disclosure

Under the Dodd-Frank Act and the related SEC rule (the "Rule"), we are required to provide our stockholders with specified disclosure regarding the relationship of our Chief Executive Officer's total compensation to the total compensation of our median employee, referred to as "pay-ratio" disclosure. For 2022, the annual total compensation of our Chief Executive Officer, for purposes of this disclosure, was \$4,580,742, and the compensation of our median employee was \$310,773, resulting in a pay ratio of approximately 15:1. The annual total compensation amounts for our Chief Executive Officer and our median employee include actual base salary earned in 2022, actual bonus earned in 2022 and paid in March 2023, the grant date fair value of the annual equity awards received in 2022, and other compensation received. Due to an 81% increase in our total headcount from 2021 to 2022, and because our 2021 median employee was promoted in 2022, we selected a new median employee for our 2022 CEO Pay Ratio Disclosure.

In accordance with SEC rules, we have identified the median employee as of December 31, 2022 by: (i) aggregating for each applicable employee: (a) annual base salary rate for salaried employees (or annualized rate for hourly employees, excluding overtime), (b) the target incentive pay for fiscal year 2022, and (c) the target value of the annual equity awards, excluding new-hire awards, for fiscal year 2022, and (ii) ranking this compensation measure for our employees from lowest to highest. This

calculation was performed for all employees employed by us as of December 31, 2022, excluding the Chief Executive Officer, whether employed on a full-time, part-time or seasonal basis. In making this determination, we annualized the compensation of employees who were employed by the Company for less than the entire fiscal year. This compensation measure was consistently applied to all employees included in the calculation and reasonably reflects the annual compensation of employees. All amounts paid in currencies other than US Dollars were converted to US Dollars based on the applicable average annual exchange rates. Since the originally identified 2022 median employee was a new hire with anomalous compensation characteristics, we selected as our median employee a continuing employee whose 2022 compensation was substantially similar to that of the original median employee.

The pay ratio reported above is a reasonable estimate calculated in a manner consistent with SEC rules based on our internal records and the methodology described above. The SEC rules for identifying the median compensated employee and calculating the pay ratio based on that employee's annual total compensation allow companies to adopt a variety of methodologies, to apply certain exclusions, and to make reasonable estimates and assumptions that reflect their employee populations and compensation practices. Therefore, the pay ratio reported by other companies may not be comparable to the pay ratio reported above, as other companies have different employee populations and compensation practices and may utilize different methodologies, exclusions, estimates and assumptions in calculating their own pay ratios. Mr. Watanabe's compensation as Chief Executive Officer for 2022 was as follows:

Chief Executive Officer	Year	Salary (\$)	Bonus \$(1)	Stock Awards (\$) (2)	Option Awards (\$) (3)	All Other Compensation \$(4)	Total (\$)
Todd Franklin Watanabe	2022	\$590,000	\$407,100	\$1,252,803	\$2,314,700	\$16,952	\$4,581,555

(1) Amounts reported in this column for 2022 represent cash annual incentive bonuses approved in March 2023 by our Board for fiscal year 2022, following the achievement of certain corporate goals as determined by the Compensation Committee and as detailed in the heading "Compensation Discussion & Analysis – Evaluation of Performance Against 2022 Corporate Goals".

(2) The amount in this column reflects the grant aggregate fair value of RSUs as of the grant date.

(3) The amount in this column reflects the grant date aggregate fair value of stock options, using the Black-Scholes value as of the grant date.

(4) Amount includes \$12,200 for matching contributions under our 401(k) plan and \$4,752 for reimbursements for travel and housing related to travel to Corporate headquarters.

Pay Versus Performance Table

The following table sets forth information regarding the total compensation, for services rendered in all capacities, that was paid to, awarded to or earned by our CEO (referred to below as our "PEO" or principal executive officer) (and on average to our non-CEO NEOs, or our "Other NEOs"), as compared to compensation actually paid ("CAP") to our CEO (and on average to our Other NEOs) and certain Company and peer performance measures during the years ended December 31, 2022, 2021 and 2020, as calculated in accordance with Item 402(v) of Regulation S-K (the "Pay Versus Performance Table"). Please note that we have not included a company selected financial performance measure in the table below as none of our NEOs' compensation in 2022 was based on any financial performance measures (and were instead based on certain non-financial performance measures, including those related to our research and development).

The comparison assumes \$100 was invested for the period starting January 31, 2020 (Date of Arcutis Biotherapeutics IPO) through the end of the listed year in the Company and in the Peer Group, respectively. Historical stock performance is not necessarily indicative of future stock performance.

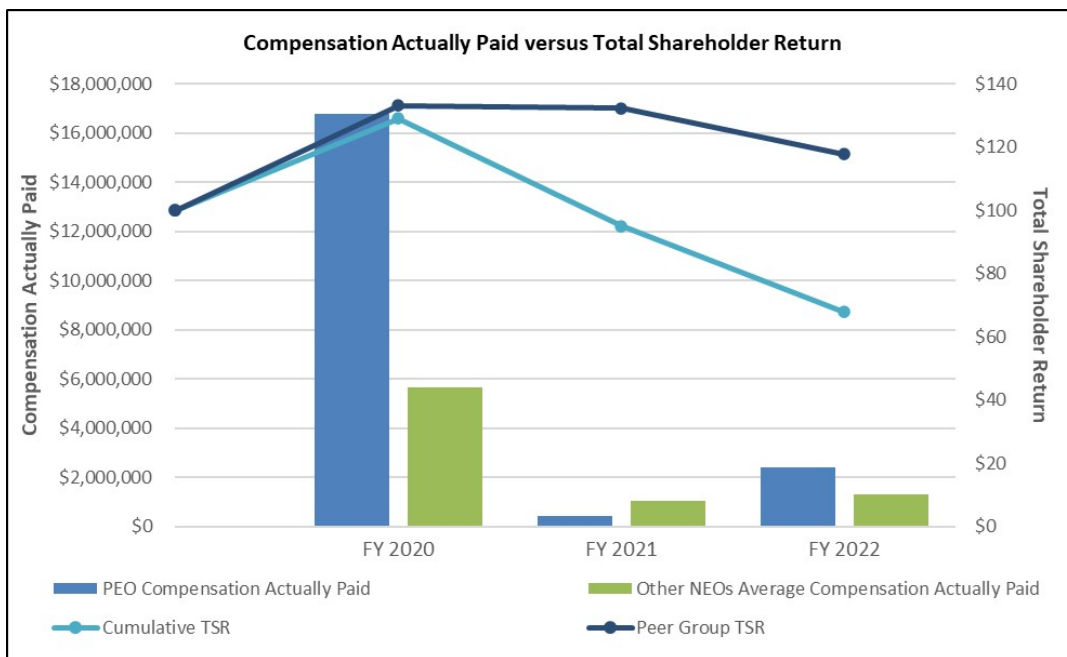

Narrative Disclosure to Pay Versus Performance Table

Description of Between CEO and Other CEO CAP and Financial Performance Measures

The graphs below compare the CAP to our CEO and the average of the CAP to our Other NEOs, with (i) our cumulative TSR, (ii) our Peer Group TSR, and (iii) our net income, in each case, for the fiscal years ended December 31, 2020, 2021 and 2022. CAP is influenced by numerous factors including, but not limited to, the timing of new grant issuances and award vesting, NEO mix, share price volatility during the fiscal year, our mix of performance metrics and other factors.

TSR amounts reported in the graph assume an initial fixed investment of \$100 was invested for the period starting December 31, 2019, through the end of the listed year in the Company and our Peer Group.

Although Item 402(v) of Regulation S-K requires the description of the relationship between the compensation actually paid for our NEOs and our net income, we do not currently utilize GAAP or non-GAAP net income as a performance measure in any of our incentive programs. As a result, the impact of year-over-year fluctuations in our net income has less of an impact on compensation actually paid. The key factor that drove the changes in compensation actually paid is the fluctuations of our stock price.

Pay Versus Performance Tabular List

In the years covered by this table, we did not use financial performance measures for our short of long-term incentive compensation for our NEOs. As described in more detail in “Executive Compensation – Compensation Discussion and Analysis,” our executive compensation program reflects a variable “pay-for-performance” philosophy. Over the three years since our initial public offering, we have not used financial or other performance measures to align executive compensation with our performance. Therefore, this analysis only covers the performance measures presented in the Pay-Versus-Performance Table. Moreover, while we generally seek to prioritize long-term performance as our primary incentive for our CEO and our other NEOs, we do not specifically align our performance measures with compensation that is actually paid (as computed in accordance with Item 402(v) of Regulation S-K) for a particular year.

Advisory Vote on Executive Compensation (“Say-on-Pay” vote)

As described above, in 2022 we held our first non-binding stockholder advisory vote on the compensation of our named executive officers, and on the frequency of any future Say-on-Pay votes. In setting the form and amount of compensation for our named executive officers, the Compensation Committee considered the voting results from this non-binding advisory Say-On-Pay vote as well as feedback received from stockholders throughout the year. Stockholder support for our fiscal 2021 compensation program was strong (approximately 95% support at our 2022 Annual Meeting of Stockholders) and did not lead us to make any fundamental changes to our executive compensation program. We will be conducting our next Say-on-Pay vote on the compensation of our named executive officers at this upcoming 2023 Annual Meeting of Stockholders as a result of our non-binding Say-on-Frequency vote from the 2022 Annual Meeting of the Stockholders. See the section titled “Proposal No. 3 Approval, on a Non-Binding, Advisory Basis, of the Compensation of our Named Executive Officers” for more information. We value the opinions of our stockholders and will consider the outcome of future Say-on-Pay votes, as well as any feedback received throughout the year, when making compensation decisions for our executive officers.

- Amounts reflect the full grant date fair value of stock and option awards computed in accordance with ASC Topic 718. See Note 10 of the audited financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 for the assumptions used in calculating these amounts. These amounts do not correspond to the actual value that may be recognized by the NEOs upon vesting of the applicable awards.

- Amounts represent cash-based annual incentive bonuses for fiscal year 2022, following the achievement of certain corporate goals as determined by the Compensation Committee and as detailed in the heading "Compensation Discussion & Analysis – Evaluation of Performance Against 2022 Corporate Goals". The "maximum" amounts shown in the table above reflect the largest possible payments related to 2022, to be paid in March 2023. There are no minimum thresholds.
- Amounts represent performance-based stock awards. The number of units granted equals the target number and maximum number of units of the award. There are no minimum thresholds.
- Amounts represent the aggregate grant date fair values of the equity awards calculated in accordance with ASC Topic 718. The aggregate grant date fair value for the RSUs was based on the fair value of our common stock on the date of grant, which was determined as the closing market price per share of our common stock on the date of grant. The aggregate grant date fair value for the Stock Options and Performance Awards was based on the Black-Scholes option valuation methodology. This calculation is performed for accounting purposes and reported in the table. However, our NEOs may never realize any value from their equity awards. For additional information, refer to Note 10 of the audited financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 for the assumptions used in calculating these amounts. The amount reported above for Performance Awards includes the probable outcome of the performance measures being achieved, which was also the highest level of achievement of the performance conditions for Mr. Matsuda.

DIRECTOR COMPENSATION

Non-Employee Director Compensation Program

We maintain a compensation program that provides cash and equity compensation to our non-employee directors (the "Non-Employee Director Compensation Program") for their service on the Board and its committees as discussed below. The Non-Employee Director Compensation Program was initially adopted and approved by our Board in connection with our initial public offering effective January 30, 2020, and is intended to be fair and competitive to account for the time and effort required of our directors. We do not provide directors who are also our employees any additional compensation for their service as directors.

The Compensation Committee regularly reviews the Non-Employee Director Compensation Program with assistance from Pay Governance, which prepares a comprehensive assessment of our program. This assessment includes benchmarking of director compensation against the same peer group used for executive compensation purposes and an update on recent trends in director compensation. Following such a review, the Compensation Committee approved changes to the cash and equity compensation in the Non-Employee Director Compensation Program, effective June 2021. Following a review in 2022, the Compensation Committee approved changes to the equity compensation whereby each non-employee director receives an annual grant consisting of a mix of stock options and restricted stock units, effective June 2022.

Cash Compensation

Pursuant to the Non-Employee Director Compensation Program, each non-employee director receives an annual retainer of \$40,000 (the "Base Retainer"). Non-employee directors are eligible to receive additional annual retainers as follows:

	Amount
Board Chair	\$35,000
Audit Committee Chair	20,000
Compensation Committee Chair	15,000
Nominating and Corporate Governance Committee Chair	10,000
Audit Committee Member	10,000
Compensation Committee Member	7,500
Nominating and Corporate Governance Committee Member	5,000

The cash compensation set forth above is payable in equal quarterly installments, in arrears following the end of each quarter in which the service occurred, pro-rated for any partial months of service.

We have also reimbursed, and will continue to reimburse, our non-employee directors for their travel, lodging, and other reasonable expenses incurred in attending meetings of our Board and committees of our Board.

Equity Compensation

The Non-Employee Director Compensation Program also provides for equity compensation to each non-employee director as compensation for his or her service on the Board. Upon a director's initial appointment or election to our Board, such director automatically receives an award of stock options to purchase shares of our common stock having a grant date fair value of \$500,000 (the "Initial Director Grant"). On an annual basis thereafter, each non-employee director is eligible to receive an award with a value equivalent to \$250,000 consisting of (1) stock options having a grant date value of \$162,500 (65% of \$250,000) and (2) an award of restricted stock units having a grant date value of \$87,500 (35% of \$250,000) (the "Annual Director Grant").

Each award granted under the Non-Employee Director Compensation Program has an exercise price per share equal to the closing trading price of our common stock on the date of grant. Initial Director Grants vest on each of the first three annual anniversaries of the grant date, subject to the award holder's continued service through each applicable vesting date. Annual Director Grants vest in full on the earlier of the first anniversary of the grant date or immediately before the next annual meeting of stockholders, subject to the award holder's continued service through the applicable vesting date. All equity awards granted to our non-employee directors under the Non-Employee Director Compensation Program will, to the extent they are outstanding and unvested, vest in full immediately prior to the consummation of a change in control.

INFORMATION ABOUT STOCK OWNERSHIP

Security Ownership of Certain Beneficial Owners and Management

The following table presents information as to the beneficial ownership of our common stock as of April 3, 2023 for:

- each person, or group of affiliated persons, known by us to beneficially own more than 5% of our common stock;
- each named executive officer as set forth in the summary compensation table above;
- each of our directors; and
- all executive officers and directors as a group.

Beneficial ownership is determined in accordance with the rules of the SEC and generally includes voting or investment power with respect to securities. Percentage ownership of our common stock in the table is based on shares of our 61,360,936 common stock issued and outstanding on April 3, 2023. This table is based upon information supplied by officers, directors and principal stockholders and Schedules 13D and Schedules 13G, if any, filed with the SEC. PROPOSAL NO. 3 APPROVAL, ON A NON-BINDING ADVISORY BASIS, OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS

Background

As required by Section 14A(a)(1) of the Exchange Act, the below resolution enables our stockholders to vote to approve, on a non-binding advisory basis, the compensation of our named executive officers as disclosed in this Proxy Statement. This proposal (the "Say-on-Pay Vote"), and commonly known as a "say-on-pay" proposal, gives our stockholders the opportunity to express their views on our named executive officers' compensation. The Say-on-Pay Vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the philosophy, policies and practices described in this Proxy Statement.

We encourage our stockholders to review the "Executive Compensation" section of this Proxy Statement for more information.

As an advisory approval, this proposal is not binding upon us or our Board. However, the Compensation Committee, which is responsible for the design and administration of our executive compensation program, values the opinions of our stockholders expressed through your vote on this proposal. The Board and Compensation Committee will consider the outcome of this vote in making future compensation decisions for our named executive officers. Accordingly, we ask our stockholders to vote "FOR" the following resolution at the Annual Meeting:

"RESOLVED, that the stockholders of Arcutis Biotherapeutics, Inc. approve, on an advisory basis, the fiscal year 2022 compensation of Arcutis Biotherapeutics, Inc.'s named executive officers as described in the "Executive Compensation" section and disclosed in the Summary Compensation Table and related compensation tables and narrative disclosure set forth in Arcutis Biotherapeutics, Inc.'s Proxy Statement for the 2023 Annual Meeting of Stockholders."

Board Recommendation

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" THE RESOLUTION TO APPROVE, ON A NON-BINDING ADVISORY BASIS, THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS, AS DISCLOSED IN THE "EXECUTIVE COMPENSATION" SECTION, THE ACCOMPANYING COMPENSATION TABLES AND RELATED NARRATIVE DISCLOSURE OF THIS PROXY STATEMENT.

ADDITIONAL INFORMATION

Householding of Proxy Materials

The SEC has adopted rules that permit companies and intermediaries (e.g., brokers) to satisfy the delivery requirements for proxy statements and annual reports with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as "householding," potentially means extra convenience for stockholders and cost savings for companies.

Brokers with account holders who are our stockholders may be "householding" our proxy materials. A single proxy statement may be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your broker that it will be "householding" communications to your address, "householding" will continue until you are notified otherwise or until you notify your broker or the Company that you no longer wish to participate in "householding."

If, at any time, you no longer wish to participate in "householding" and would prefer to receive a separate proxy statement and annual report, you may (1) notify your broker, (2) direct your written request to: 3027 Townsgate Road, Suite 300, Westlake Village, CA 91361 or (3) request from Broadridge Financial Solutions, Inc. by calling 1-866-540-7095. Stockholders who currently receive multiple copies of this Proxy Statement at their address and would like to request "householding" of their communications should contact their broker. In addition, the Company will promptly deliver, upon written or oral request to the address or telephone number above, a separate copy of the Form 10-K, Proxy Statement, Proxy Card or Notice of Internet Availability of Proxy Materials to a stockholder at a shared address to which a single copy of the documents was delivered.

Forward-Looking Statements

This proxy statement contains "forward-looking statements" (as defined in the Private Securities Litigation Reform Act of 1995). These statements are based on our current expectations and involve risks and uncertainties, which may cause results to differ materially from those set forth in the statements. The forward-looking statements may include statements regarding actions to be taken by us. We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise. Forward-looking statements should be evaluated together with the many uncertainties that affect our business, particularly those mentioned in the risk factors in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2022 and in our periodic reports on Form 10-Q and our current reports on Form 8-K.

No Incorporation By Reference

In our filings with the SEC, information is sometimes "incorporated by reference." This means that we are referring you to information that has previously been filed with the SEC, information that should be considered as part of the filing that you are reading. Based on SEC regulations, the reports of the Audit Committee and Compensation Committee included in this proxy statement, are not specifically incorporated by reference into any other filings that we make with the SEC. In addition, references to our website are not intended to function as a hyperlink and the information contained on our website is not intended to be part of this proxy statement. Information on our website, other than our proxy statement, Notice of Annual Meeting of Stockholders, and form of proxy, is not part of the proxy soliciting material and is not incorporated herein by reference.

Other Matters

As of the date of this Proxy Statement, the Board does not intend to present any matters other than those described herein at the Annual Meeting and is unaware of any matters to be presented by other parties. If other matters are properly brought before the Annual Meeting for action by the

stockholders, proxies will be voted in accordance with the recommendation of the Board or, in the absence of such a recommendation, in the discretion of the proxy holder.

We have filed our Annual Report on Form 10-K for the year ended December 31, 2022 with the SEC. It is available free of charge at the SEC's web site at www.sec.gov. Upon written request by a stockholder of Arcutis Biotherapeutics, Inc., we will mail without charge a copy of our Annual Report on Form 10-K, including the financial statements and financial statement schedules, but excluding exhibits to the Annual Report on Form 10-K. Exhibits to the Annual Report on Form 10-K are available upon payment of a reasonable fee, which is limited to our expenses in furnishing the requested exhibit. All requests should be directed to the Corporate Secretary, 3027 Townsgate Road, Suite 300, Westlake Village, CA 91361.
